

SHEPHERDS MILL ROAD BRIDGE REPLACEMENT

DESCRIPTION

The Shepherds Mill Road bridge replacement project includes replacing the existing bridge with a new structure. The structure crosses over Little Pipe Creek in western Carroll County near Union Bridge. The new bridge will be designed to handle all the current legal vehicles.

Design of the new structure is underway, and construction is planned for fall of 2018. Traffic will be detoured around the work zone when construction commences.

Federal funds from the Highway Bridge Replacement and Rehabilitation Program will cover 80-percent of the design and construction costs.

Completing this project will reduce maintenance costs and provide a structurally sufficient bridge for many years.

PROJECT ENGINEER

Greenman Pederson, Inc.

CONTRACTOR

To be bid

PROJECT BUDGET

\$798,000 County funds

\$3,192,000 Federal funds

CONTACT INFORMATION
