

Elmer Wolfe

Location

The existing stormwater management facility is located at Elmer Wolfe Elementary School, 119 North Main Street in Union Bridge.

Description

Elmer Wolfe Elementary was constructed in 1998. Stormwater management for the site is provided by a detention basin located adjacent to the parking lot. The Bureau of Resource Management is partnering with the Board of Education to retrofit the facility which has a drainage area of 9.76 acres, approximately 4.56 of which is impervious area.
