

# Greens of Westminster

## Location

The existing stormwater management facility is located between Mayfield and Wampler Courts in Westminster.

## Description

The Greens of Westminster is a residential subdivision constructed in the 1980s on the west side of Westminster. The Bureau of Resource Management is working with the City of Westminster to retrofit the facility to provide water quality for the untreated impervious area in the watershed. The drainage area to the facility is approximately 38 acres, 12.5 acres of which is impervious area.
