

Langdon Property

Location

The Langdon project is located in Westminster adjacent to Westminster Avenue. This site is in the Double Pipe Creek watershed.

Description

The facility will treat a total of 181 acres of urban drainage that currently flows untreated into the existing stream channel. The project will reduce the non-point source pollution entering the Double Pipe Creek and Chesapeake Bay watersheds and alleviate current flooding issues.

Project Engineer

CLSI, Inc.

Contractor

TBD

Project Budget

Engineering: \$104,358

Project Timeline

Construction plans are finalized. Once SHA issues their approval of the plans, the project will go out to bid. Construction is anticipated to begin in the summer of 2019.

Updates

BRM was awarded a State Highway Administration (SHA) grant for \$979,941.00.
