

# Shiloh Middle

## Location

The facility is located behind the athletic fields at Shiloh Middle School at 3675 Willow Street in Hampstead.

## Description

Shiloh Middle was constructed in 1999. The existing facility is a shallow marsh with a geomembrane liner. The drainage area to the facility is 77 acres, 27 of which are impervious. The retrofit will address erosion issues at the inflow swale and provide water quality, channel protection, and 10 year management back to meadow conditions.

## Project Engineer

RK&K

## Contractor

TBD

## Project Budget

Engineering—\$109,616

## Project Timeline

BRM staff are reviewing revised preliminary plans.

## Updates

A redesign of the small facility may be necessary due to the location of a sewer line which was not identified by Public Works in their initial review.
