Eden Farm/Willow Pond

Location
The Eden Farm/Willow Pond project site is located in Westminster adjacent to Sunshine Way and Eden Farms Circle. The project site is within the Liberty Reservoir watershed.

Description
This project will retrofit the existing pond by making it smaller in surface area, but deeper. The project will also restore natural floodplain to the adjacent stream. The proposed facility will treat 167 acres of drainage area and 44.5 acres of impervious area.

Project Engineer
RK&K

Contractor
Kibler Construction Co., Inc.

Proposed Budget
Engineering: $159,567
Construction: $2,950,000

Project Timeline
Construction is well underway. The installation of the stormwater drain on Sullivan Road is wrapping up and work to construct the new pond embankment is ongoing. The main weir wall has been poured, and all erosion and sediment control measures are installed.

Updates
The Bureau of Resource Management was awarded a grant from the Department of Natural Resources for $1,900,000 towards construction of this facility.
