Carroll County Department of Planning
Comprehensive Zoning Assessment Report

1. Request

Request #: C2-04-2020-0019  Applicant Name: JEMS Investment LLC

Property Address: Old Westminster Pike, Finksburg, MD 21048 (Parcel 1050)

2. Description of Property

Property Address: Old Westminster Pike, Finksburg, MD 21048

Commissioner District: 2  Account ID: 07-04-001974

Parcel: 1050  Map: 0059

Total Acreage of Parcel: 7.8 acres  Area to be Rezoned: 7.8 acres

Current Use (SDAT): Residential  Improved or Unimproved: Unimproved

3. Land Use and Zoning Considerations

Existing Land Uses: No improvements on the property.

Land Use Plan Designation:1 Conservation, 2013 Finksburg Corridor Plan (2013 FCP)

Zoning History Summary

This property has been zoned Conservation since 1965. A request for rezoning to the “B-G” Business-General District was denied in 1968 based on protection of the Liberty Reservoir and environmental constraints to development.

4. Consistency with Master and Functional Plans:

A. Applicable Master Plan Land Use (MGA, Rural Village Designation, Etc.)

The requested “C-2” Commercial Medium zoning is inconsistent with the future land use designation of Conservation in the 2013 FCP. This property is inside the Finksburg designated growth area and immediately outside the state designated priority funding area and designated sustainable community.

B. Applicable Master Plan Goals and Objectives

This request is contrary to the following goals and recommended actions as articulated in the 2013 FCP:

Goals
- To recognize and respond to the essential need to protect water quality in the Liberty Reservoir and its tributaries
- To create development that limits adverse environmental impacts
- To encourage redevelopment as a way to promote new small-scale business, office and retail activity within the corridor

Recommended Actions
- Where possible, implement the 2005 Action Strategy for the Reservoir Watersheds through compatible land use designations
  - Section 3.6 Land-Use Planning and Zoning contains the following strategies:
    3) Baltimore and Carroll Counties will maintain the current extent of conservation and agricultural zoning in the reservoir watersheds, insofar as possible.
    4) Baltimore and Carroll Counties will protect the reservoir watersheds by limiting insofar as possible additional urban development zoning within the reservoir watersheds.
Note: The 2005 Reservoir Watershed Management Agreement has the fundamental goal of ensuring that the three reservoirs and their respective watersheds will continue to serve as sources of high-quality raw water for the Baltimore metropolitan water-supply system. Other goals address future loadings to the reservoirs of phosphorus, sediment, bacteria, sodium and chlorides; reducing the risk of contamination by hazardous materials; and promoting beneficial patterns of land use in the three watersheds. The Action Strategy for the Region's Watersheds was created to further the goals of the 2005 Agreement.

C. Water Service Area and Service lines in proximity (see map)

W-7 No Planned Water Service

D. Sewer Service Area and Service lines in proximity (see map)

S-7 No Planned Sewer Service

5. Environmental Constraints

Roughly 58% of the property is identified as forested, and the southwest portion of the property is the only area not predominantly covered by steep slopes >25%. A stream from the Liberty Reservoir enters the property from east, extends to the west through the center of the property and terminates roughly 150 feet from the property line. According to the United States Geological Survey the abandoned Patapsco Mine is located on this property.

6. Historic Resources Identified

No historic sites were identified on the property. One historic district and six historic sites were identified within a ½ mile radius.

7. Public Safety Assessment

EMS is adequate; there are no deficiencies at the time of this assessment. Fire is adequate for Late and Failed and is approaching inadequate for Response Time.
8. Ag Preservation and Applicable Preservation Area

None

9. Assessment Summary

Given the site’s proximity to the Liberty Reservoir, many environmental constraints and inconsistency with the 2013 FCP, it is not appropriate to allow commercial medium uses on this property. The request poses significant, adverse effects to the Liberty Reservoir. Furthermore, this property was not identified as a property with a future land use change in the most recent Finksburg Corridor Plan adopted in 2013. Changing this property’s zoning classification would not be consistent with the plan’s future land use designation or its goals and recommendations for the area. The site is within the Finksburg designated growth area yet outside of the state designated priority funding area and designated sustainable community.
