Other Comments:

The following language was included in the BCC 2021 CTP Priority Letter regarding MD26: “The County is currently discussing with the SHA ways to revise the 30 percent design to a new “practical” design approach. Rather than complete widening to six lanes, improvements will consist of more limited breakout projects that focus primarily on enhancing the safety of the corridor. This may be achieved through the extension of auxiliary lanes, increased signalization, and a center median in certain segments of the road which have been identified as critical to the safe and efficient functioning of the entire corridor. Through further analysis and collaboration with SHA staff, breakout projects will be identified and prioritized.”
