Issue:

Comp Rezoning - Adoption of Comp Rezoning By-Request Map Ordinance

Background:

Over the past year the Carroll County Department of Planning accepted, reviewed and commented on 28 By-Request Comprehensive Rezoning applications with the Planning and Zoning Commission and the Board of County Commissioners. Following review by the planning staff and the Planning and Zoning Commission, these recommendations were transmitted to the Board of County Commissioners on October 20, 2020. Numerous work sessions and a listening session were held by the Board from October 29th through the month of November. On December 3, 2020, a public hearing was hosted by the Board regarding the proposed map amendments for the requested properties to the appropriate commercial, industrial and employment campus zoning districts.

Staff compiled comments received throughout the process and forwarded these to the Board. Three additional work sessions were held for the Board to take provisional votes for each request. The final step is for the Board to adopt the ordinance for the appropriate zoning maps making the zoning change.

Action:

Adopt the Zoning Map Amendment Ordinance

Staff Recommended Motion:

I move that Board of County Commissioners adopt the Zoning Maps implementing the By-Request Comprehensive Rezoning map amendments as listed in the Ordinance.

Open Session

Issue: Solid Waste Enterprise Fund Financing Option – System Benefit Charge (SBC)

Discussion/Decision: Work session to discuss potential System Benefit Charge options to fund Solid Waste Enterprise Fund operations.

Background:

The Carroll County Solid Waste Enterprise Fund encompasses all county operated solid waste and recycling operations, including the Northern Landfill and multiple closed facilities.

Northern Landfill opened in 1988. The current operating model has been a landfill/transfer station hybrid since 1998. Transfer of waste to out of the area landfills extends the life of Northern Landfill, but significantly increases annual operating costs. Lack of proper funding also imperils future operations and the accompanying Master Plan for the landfill.

Funding for the Solid Waste Enterprise Fund has traditionally been a combination of tip fees and general fund/operating transfer. Projected shortfalls in FY22 and FY23 exceed \$3.3M and \$3.8M respectively.

In summary, a System Benefit Charge funding option places a charge on properties to cover a portion, or all, of the anticipated capital and operating costs for processing of waste and recycling not covered by tip fees. This financial model is used in multiple counties in Maryland and beyond.

Action: If interest exists, provide further direction to DPW related to developing a detailed System Benefit Charge model and accompanying County ordinance.

Staff-Recommended Motion: I move the Board of County Commissioners authorize staff to issue a solicitation for bids from consultants to design a System Benefit Charge model.
