Medical Cannabis 101

The cannabis educational seminar is intended to clear up some of the misconceptions and provide clarity around medical cannabis. I will be discussing the Maryland medical cannabis program, how cannabis works within the body, the potential benefits and side effects of medical cannabis, and what kinds of products are available in Maryland. If you are curious about medical cannabis or would like to know more about whether medical cannabis may be an option for you, this is a presentation you won't want to miss.
