## Health Department Seeks Help to Find Dog

Westminster, MD (September 26, 2017) – The Carroll County Health Department is asking area residents for help in finding a dog that bit a person between 5:30 and 6:00 AM on Monday, September 25th, in the alley between East Green Street, South Center Street, and Lincoln Road in Westminster.

The dog was described as a blue nose pit bull, with a steel gray coat and white on its chest.

According to the Health Department, it is likely that the victim of the attack will be treated with a series of post-exposure rabies shots if the dog has not been found and verified to be in good health by the morning of October 5th.

If you have any information that may help locate this dog or its owner, please contact the Carroll County Health Department at (410) 876-1884 or the Carroll County Humane Society at (410) 848-4810.

The Carroll County Health Department's website can be found at <http://cchd.maryland.gov> and you can follow them on Facebook.
