Health Department Seeks Help to Find Dog

Westminster, MD (July 10, 2017) – The Carroll County Health Department is asking area residents for help in finding a dog that bit a person around 8:00 AM at 209 Sullivan Road in Westminster on July 10th.

The dog was described as having a medium build, floppy ears, and a long straight tail with a short to medium coat that was primarily grey with touches of brown.

According to the Health Department, it is likely that the victim of the attack will be treated with a series of post-exposure rabies shots if the dog has not been found and verified to be in good health by the morning of July 20th.

If you have any information that may help locate this dog or its owner, please contact the Carroll County Health Department at (410) 876-1884 or the Carroll County Humane Society at (410) 848-4810.

The Carroll County Health Department's website can be found at <http://cchd.maryland.gov> and you can follow them on Facebook.
