

Overview of Public Works CIP

The Public Works FY 18 – 23 CIP includes two separate sections: Roads and Bridges.

Approximately \$87.9 million is included in the FY 18 – 23 CIP to maintain roads throughout the County. Approximately thirty-five percent of the County's road network is considered mainline or arterial roads. These roads carry a higher traffic volume. Sixty-five percent are lower volume roadways, including neighborhood roads. Typical repair strategies include patching, overlay, mill and overlay, full depth reclamation and reconstruction.

Funding is provided to update the 1994 Design Manual for Roads and Storm Drains to meet current industry standards.

Included in FY 18 – 23 is \$0.6 million to support State road projects. Contributing to State projects may expedite the planning process for State roads in Carroll County. Market Street Extended, a new road construction project, will create a more direct connection to MD 140 from Old Westminster Pike.

Funding is included for the replacement or rehabilitation of nine bridge structures.

For additional information on these or other Public Works projects, please refer to the individual project pages.
