158.078.01 "C-3" COMMERCIAL HIGH INTENSITY DISTRICT.

(A) Purpose and Intent. The purpose of the C-3 District is to provide locations for high-intensity, large-scale retail businesses and destinations of a regional nature, planned business parks, clusters of commercial development, wholesale businesses, offices, and certain light processing operations. This district is also intended to provide locations for compatible institutional and recreational uses, limited residential uses, and some of the medium-intensity uses associated with the C-2 District. Uses in this district should be located in proximity to transportation infrastructure and major corridors, and are characterized by medium to high volumes of traffic. Developments in the C-3 District should, where possible and appropriate, facilitate pedestrian circulation. Generally, longer hours of operation are to be expected.

(B) Applicability. The following regulations and applicable regulations contained in other sections shall be permitted in the "C-3" District.

(C) Principal Uses. The regulation of principal uses is set forth in Section 158.082.

(D) Required conditions. Site plan review requirements shall be as provided by Chapter 155 of the Carroll County Code.

158.079 "I-R1" RESTRICTED LIGHT INDUSTRIAL DISTRICT.

(A) Purpose and Intent. ~~The purpose of the "I R" District is to provide locations for some of the lighter manufacturing processes and which may not be as extensive as those provided in the I G2 District. For the most part, the manufacturing is composed of processing or assembly of previously processed materials. It is not the purpose of this district to promote or encourage the use of land within the district for retail services or PBCs normally expected to be located within the established business district; however, it is anticipated that there may be areas or locations where retail services or PBCs can be reasonably and logically considered due to their relationship with other uses existing within the district, as well as their relationship with the district boundary line or the configuration of the property and the relative scale of the project.~~ The purpose of the I-1 District is to provide locations and guidance for certain types of nonagricultural, nonresidential, and generally nonretail commercial activities characterized by

light manufacturing, assembling, fabricating, warehousing, wholesale distribution, and limited office and commercial uses which are supportive or directly related to industrial uses, which may not be as intense as those provided for in the I-2 District, and which, with proper landscaping, separation, setback, and buffering, will not significantly detract from adjoining residential or commercial properties. Typically, this district would accommodate light manufacturing which is characterized by the utilization of partially processed materials which are used to produce relatively small and/or light consumer goods. The end products are generally more consumer than business-oriented, have processes that generate less environmental impacts, and are usually easier to transport than those of a heavy manufacturing process. It is intended that such districts be located with access to major thoroughfares or other major modes of transportation, depending upon the specific demands of the industry being served. Industrial Parks are encouraged in this district to provide for clustering of similar industrial uses with common access and infrastructure, as well as the provision of open spaces, stormwater management, and adequate buffering. It is not the purpose of this district to promote or encourage the use of land within this district for retail services, Planned Commercial Centers, or similar uses typically expected to be located within the established commercial districts. However, it is anticipated that there may be areas or locations where limited and specific retail services can be reasonably and logically considered under specific conditions within the district.

(B) Applicability. The following regulations and applicable regulations contained in other sections shall be permitted in the "I-1" R Restricted Industrial District.

(C) Principal Uses. The regulation of principal uses is set forth in Section 158.082.

~~(C) Principal permitted uses. Principal permitted uses shall be as follows:~~

158.080 ~~"I-G"~~ GENERAL HEAVY INDUSTRIAL DISTRICT.

~~(A) Purpose and Intent. The purpose of the "I-G" District is to provide for manufacturing or processing which may require extensive transportation, water, and/or sewerage facilities, as well as open space, because of the number of employees, the type of manufacturing operation,~~

~~or any by-products which might result from the heavier or larger manufacturing plants proposed.~~ The purpose of the I-2 District is to provide locations and guidance for certain types of nonagricultural, nonresidential, and noncommercial activities characterized by heavy manufacturing, refining, processing, or compounding of materials or products predominantly from raw materials. This district may also accommodate some of the light manufacturing uses permitted in the I-1 (Light Industrial) District. The uses associated with this district are intensive and frequently include operations that emit strong odors; loud noises, and some level or volume of dust, vibration, smoke, soot, vapors, light, and pollution. Typically, this district would accommodate heavy manufacturing which is characterized by the utilization of primary elements and raw materials which are used to produce large or heavy products that are sometimes difficult to transport. Heavy manufacturing typically requires large machines or facilities, large or specialized equipment, and involves complex or numerous processes. The products are often intermediaries for use by other industries, and the manufacturing usually has the potential for more of an environmental impact than in the I-1 District. It is intended that properties in this district be located with access to major thoroughfares or other major modes of transportation, depending on the specific demands of the industry being served. Industrial Parks are encouraged in this district to provide for clustering of similar industrial uses with common access and infrastructure as well as the provision of open spaces, stormwater management, and adequate buffering. It is not the purpose of this district to promote or encourage the use of land within this district for retail services, Planned Commercial Centers, or similar uses typically expected to be located within the established commercial districts. However, it is anticipated that there may be areas or locations where limited and specific retail services can be reasonably and logically considered under specific conditions within the district.

(B) Applicability. The following regulations and applicable regulations contained in other sections shall apply in the “~~I-2G~~” District.

(C) Principal Uses. The regulation of principal uses is set forth in Section 158.082.

~~(C) Principal permitted uses. Principal permitted uses shall be as follows:~~

~~(1) Uses of a heavy industrial nature, but not limited to the following, provided that such uses shall be located two times the distance requirements specified in § 158.040:~~

~~(a) Manufacture and assembly of aircraft, automobiles, house trailers, or other vehicles;~~

~~(b) Manufacture and bottling of alcoholic beverages;~~

~~(c) Manufacture of brick or clay products;~~

- ~~(d) Machine shops, structural steel fabricating;~~
- ~~(e) Coal yards;~~
- ~~(f) Cooperage works;~~

- ~~(i) Manufacture of dye or dyestuff and printing ink;~~
- ~~(j) Electric generating or steam power plants;~~
- ~~(k) Flour mill, grain milling, or drying;~~
- ~~(l) Manufacture of felt, shoddy, hair products, feathers, emery cloth, sandpaper, or sand blasting and/or products therefrom;~~

- ~~(u) Manufacture of soap, oil, paints, turpentine;~~
- ~~(v) Manufacture of wire or wire products; and~~
- ~~(w) Manufacture of mulch, including the processing, storage, and sale at retail and wholesale.~~

~~(2) Agriculture for interim use, provided that any buildings or feeding pens in which farm animals are kept shall comply with the distance requirements of § 158.040;~~

~~(3) Any use permitted and as regulated as a principal permitted use in the "I R" District, except as hereinafter modified;~~

~~(4) Any other use that is determined by the BZA to be of the same general character as the above permitted uses and which would not be detrimental to the public health, safety, or general welfare of the community, but not including any use which is prohibited in the "I R" District; and~~

~~(5) Subject to the requirements of this subchapter, an adult entertainment business, a massage establishment or a striptease business is a principal permitted use in the "I G" District.~~

~~(a) An adult entertainment business, a massage establishment or a striptease business may not be located within 1,000 feet of:~~

~~1. A religious establishment;~~

~~2. A public or private school;~~

~~3. A public park or public recreational facility;~~

~~4. A public library;~~

~~5. A child care home, child care institution, or family day care home licensed or registered under state law; or~~

~~6. A lot zoned residentially or devoted primarily to residential use.~~

~~(b) An adult entertainment business, a massage establishment or a striptease business may not be located within 2,500 feet of another adult entertainment business, massage establishment or striptease business.~~

~~(c) In determining compliance with the siting requirements in division (E)(1) below, measurements shall be made in a straight line, without regard to intervening objects, from the closest point of the structure containing the adult entertainment business, massage establishment or striptease business to the nearest property line of the lot or use listed in division (E)(1) below.~~

~~(D) Conditional uses requiring BZA authorization. Conditional uses requiring BZA authorization shall be as follows:~~

- ~~3. The storage module shall be screened from the adjacent roadway; and~~
- ~~4. Number of storage modules to be determined by the Zoning Administrator.~~

~~(c) Retail sales and service of products manufactured on or distributed from the site.~~

~~(2) Provided all accessory uses do not exceed 15% of the lot or parcel, and provided no individual use exceeds 3,000 square feet except as provided below, the following retail or other commercial uses in conjunction with a principal permitted or approved conditional use, not exceeding 15% of the lot or parcel, and subject to authorization of the BZA after a public hearing:~~

(A) Purpose and Intent. The purpose of the E-C District is to provide for and foster comprehensively planned employment centers in campus-like settings to attract employers of

highly skilled workers and primarily higher paying jobs, including but not limited to, research and development, institutional, office, flex space, and other light and limited industrial uses, while also providing a more flexible approach to design and development. In this district, the integration of trails, sidewalks, communal plazas, and shared amenities is encouraged. The following objectives are sought in providing for the E-C District:

(1) To facilitate a well-planned development with higher standards of development than are typically found in other employment districts;

(2) To provide for development that will incorporate the natural features of the land and protect the environment;

(3) To maintain a harmonious relationship between the various buildings and sites contained within the district;

(4) To provide development patterns that recognize the character of established surrounding neighborhoods and other types of land uses, and consider potential adverse impacts on neighboring properties;

(5) To provide for interaction and integration among users, thereby contributing to a positive and healthy working environment;

(6) To ensure that the limited number of permitted and accessory residential, retail, service, eating and drinking uses within the district have the principal purpose of serving the employment campus;

(7) To encourage green spaces, walking trails and other recreational uses;

(8) To serve as an economic development tool in the effort to increase the County's commercial and industrial tax base;

(9) To encourage development of buildings that can be easily adapted as the range of tenants and regional market for employment evolves; and

(10) To provide a flexible employment district.

(B) Development Plan. The developer of any employment campus (prior to any construction) shall present to the Planning Commission for its review, a development plan of such proposed campus. The purpose of the development plan is to provide the Planning Commission with the necessary information to ascertain whether the proposed employment campus is consistent with the purposes of the district as articulated in subsection (A) above. The development plan shall show such items as the size of the project, the location and approximate shapes of buildings, road ingress and egress patterns, parking areas, storm drainage, and water and

sewerage facilities, and such other information as is necessary for the Planning Commission to give the necessary consideration. The Planning Commission shall require phasing of construction of the residential, retail, and service portions of the employment campus to ensure that these components are in support of the primary employment uses.

(1) It shall be the duty of the Planning Commission to ascertain whether the location, size, and other characteristics of the site, and the proposed plan, comply with the following conditions:

(a) The proposed development will not cause points of traffic congestion on existing or planned roads in the areas of such proposed location; and

(b) The plans provide for a development consisting of one or more groups of establishments in buildings of integrated and harmonious design, together with adequate and properly arranged traffic, parking facilities and landscaping, so as to result in an attractive and efficient development.

(C) Parking. For all commercial, industrial, institutional, and public uses, parking shall be provided in accordance with a formula of five parking spaces for every 1,000 square feet of space.

(D) Outdoor Storage. No outdoor storage of equipment, material or products will be permitted.

(E) Signage. A signage plan shall be submitted at the time of development plan review to assure that the appearance, size, height, type of material, and other aspects of signs are consistent with the purposes and intent of the district. The regulations set forth in Sections 158.112, 158.113, and 158.114 shall also apply in the Employment Campus District.

(F) Landscaping. The minimum open space and landscaped area on any development shall not be less than 20% of the gross land area of the development. All development in this district shall comply with Chapter 157 of the Carroll County Code and to the technical standards established in the Carroll County Landscape Manual. Supplemental landscaping may be required in order to comply with the objectives set forth in subsection (A).

(G) Architecture. Building architectural renderings or plans shall be submitted at the time of development plan review to assure that the appearance, size, type of building material, and other aspects of the buildings are consistent with the purposes and intent of the district.

(H) Solar Energy Conversion Facilities. Solar energy conversion facilities may be approved as part of the development plan, provided they are roof-mounted, subject to the requirements of Section 158.153, or mounted on a canopy in a parking area.

(I) Principal Uses. The regulation of principal uses is set forth in Section 158.082.

(J) Mix of Uses. The following limitations shall apply:

- (1) General retail, general service, eating and drinking uses, including principal and accessory uses, shall not comprise more than 25% of the total area of the structures located in the employment campus development.
- (2) Where permitted in Section 158.082, residential uses shall not collectively comprise more than 15% of the total area of the employment campus development. Density for retirement homes and multifamily units shall not exceed one dwelling unit per 3,000 square feet, and other types of dwelling units shall not exceed one dwelling unit per 7,500 square feet. Such residential uses shall be architecturally compatible with and supportive of the employment uses. All residential uses shall be subject to Chapter 156, Adequate Public Facilities and Concurrency Management.

(K) Accessory Uses. Accessory uses shall be as follows:

- (1) Uses customarily accessory and incidental to any principal permitted use or authorized conditional use.
- (2) Solar energy conversion facility, subject to the requirements of Section 158.153(B).
- (3) General retail, general service, eating and drinking establishments, indoor recreation uses, and day care centers, provided that an individual use does not exceed 3,000 square feet, except health clubs and day care centers, which may not exceed 6,000 square feet.

(L) Bulk Requirements. With the exception of building height, the bulk requirements shall be established at the time of site plan approval. The maximum allowable height in this district shall be 60 feet.

(M) Required conditions. Site plan review requirements shall be as provided by Chapter 155 of the Carroll County Code.
