Budget Message

Fiscal Year 2020 Adopted Budget Summary

A difficult budget process following a difficult decade

It seems as if the recession would be old news by now, but we are still feeling its impact through what seems to be a fundamentally changed fiscal situation. Thoughts of returning to “normal” have long since been abandoned. Property Tax, the County’s largest revenue, is growing, but modestly. Based on FY 18 - 20 reassessments and projected new construction, Property Tax revenue is projected at 3.0% annual growth. Income Tax distributions have been volatile in recent years, in part due to taxpayer behavior associated with anticipated and actual Federal tax changes, adding uncertainty to near-term growth levels. Unemployment is low, but wage growth has been modest. Carroll’s Operating Budget has averaged just 1.6% annual growth since FY 10, though it has been 2.4% over the last 3 years.

The Total Budget

The General Fund, or what people often think of as the Operating Budget, gets most of the attention, but the County Budget includes thirteen funds. The All Funds budget is \$548.1M, a decrease of \$20.9M, or 3.7%, from FY 19. There are changes to every fund, but the decrease is driven primarily by one-time FY 19 capital projects of \$22.6M for an expansion and modernization of Carroll County Public School’s Career and Technology facility, and a new building for the State’s Attorney’s Office.

The Operating Budget

The FY 20 Operating Budget is \$418.8M, a \$7.5M, or 1.8%, increase over FY 19. The increase in ongoing revenue is driven by growth in the County’s two largest revenues, Property Tax and Income Tax. The County lowered revenue growth projections from the FY 19 - 24 Plan, which resulted in an unbalanced FY 20 - 25 Plan. Numerous decisions were made by the County Commissioners to bring the operating plan back into balance.

The primary drivers for the \$7.5M increase in the Operating Budget expenditures from FY 19 to FY 20 include:

- \$4.9M to the Board of Education
- \$1.0M to the Sheriff’s Office
- \$0.5M to the Carroll Community College
- \$0.3M to the Carroll County Public Library
- \$0.3M for a Fire Chief and Administrative Assistant

Commissioner actions during Proposed and Adopted Budget deliberations include:

- No tax rate increases.
- Provided an additional \$1.0M for Board of Education funding in FY 20 by smoothing future school funding and the use of prior year unassigned fund balance.

- Property Tax to the Agricultural Land Preservation Community Investment Plan (CIP) program capped at \$3.0M in FY 23 – 25, and ongoing.
- Increased the vehicle maintenance rate charged to outside agencies from \$45/hour to \$75/hour by FY 25.
- Used a total of \$3.0M of unassigned fund balance in FY 22 - 25.
- Reduced the planned addition of 10 School Resource Officers in FY 20 to 4 School Resource Officers and 1 Unit Coordinator.
- Reduced Economic Development Infrastructure and Grants to \$1.25M per year in FY 20-25.
- Eliminated the reserve for positions in FY 22 - 25.
- Reduced the Pavement Management CIP project by a total of \$4.8M in FY 21 - 23.
- Reduced the State/Transportation CIP project annually by \$0.1M in FY 20 - 22.
- Eliminated \$50,000 annually from the Trail Development CIP project.
- Eliminated funding to the Environmental Compliance CIP project in FY 20 - 25.
- Eliminated \$2.9M of funding for NCHS Roof or Demolition CIP project.
- Eliminated \$30,000 annually in FY 20 - 25 for the Infrastructure Studies CIP project.
- Eliminated the \$0.6M Additional Waste Drop-Off Area capital project at Northern Landfill.
- Reduced the Technology infrastructure and County Systemic replacements CIP projects by 5% annually in FY 20 - 25.
- Held Not In Carroll funding flat throughout the plan.
- Added \$0.42M for Charles Carroll Community Center CIP project to expand the gymnasium to accommodate bleachers.
- \$0.4M one-time for a 1% bonus for County employees.
- \$0.2M one-time to the Community College for a 1% employee bonus.
- \$0.3M of ongoing funds to increase disability plan benefits for Sheriff Deputies and Correctional Deputies.
- Funded three new County positions from the reserve for positions, including an Employment Compliance Coordinator, a Resource Management Technician, and a Network Client Analyst.
- \$0.2M one-time of Hotel Rental Tax funding for installation of a playground at the Farm Museum.
- \$0.16M of FY 19 Economic Development Infrastructure and Grants funding to reimburse for work performed on a NPDES project.
- Provided ongoing funding for project management software and a non-emergency request and work management program.
- Increased assumed funding growth to ARC, Target, Change, and Mosaic from 1% annually to 2% annually.
- Increased ongoing funding to Rape Crisis to replace lost grant funding.
- Changed the status of 12 Citizen Services positions from Contingent to Regular.
- Provided one-time funding to VESA for Self-Contained Breathing Apparatus for Lineboro Volunteer Fire Company.
- \$25,000 of additional ongoing funding for Veteran's Transit.
- \$25,000 additional ongoing for the State's Board of Elections salary plan.
- \$3,000 additional ongoing stipend for Board of Elections.

- \$5,000 one-time funding to Union Mills for a Tannery Interpretation.
- \$2,500 one-time funding to Historical Society for a printer replacement.

Balancing the Plan

One-time and short-term funding was used to balance FY 22 - 25. Few jurisdictions build multi-year budget plans that are balanced for all years. Carroll County uses a six-year operating plan to capture future year impacts and the sustainability of current year actions. The Board of County Commissioners made the decisions necessary to balance all years in the FY 20 - 25 Plan. Below are the bottom lines of the FY 20 - 25 Operating Plan.

Millions	FY 20	FY 21	FY 22	FY 23	FY 24	FY 25

County Highlights

Even after numerous years of troubled economic conditions and modest revenue growth, the County has many good things to talk about:

- Carroll County Public Schools continues to be among the most highly ranked systems in the highly ranked State of Maryland.
- Carroll County Public Library continues to have one of the highest circulation rates per capita in the State.
- Significant business and employment developments are progressing, creating the potential for high-quality job opportunities.
- More than 73,000 acres are under permanent easement in our Agricultural Land Preservation programs, supporting agribusiness and maintaining our rural heritage while avoiding the costs of services and infrastructure to serve residential development.
- Carroll continues to be highly rated by the credit rating agencies with three AAA. We continue to see strong demand for our bonds.

History

Carroll County was created in 1837 from parts of Baltimore and Frederick Counties. The County was named for Charles Carroll of Carrollton. Carroll was a Marylander and the last surviving signer of the Declaration of Independence. He died in 1832 at the age of 95. During the American Civil War, the population of Carroll County was sharply divided between supporters of the Union and the Confederacy. In 1863, there were historic troop movements through the County as part of the Gettysburg campaign. On June 29, 1863, the cavalry battle of Corbit's Charge was fought in the streets of Westminster. This would later be recognized as a contributing factor in the eventual defeat of Robert E. Lee's army at Gettysburg.

Today

Carroll County is bordered on the north by the Mason-Dixon Line. The Patapsco River forms the southern border and Liberty Reservoir forms part of the eastern border. Carroll County is bordered on the west by the Monocacy River and Sams Creek. Carroll has eight incorporated municipalities: Hampstead, Manchester, Mount Airy, New Windsor, Sykesville, Taneytown, Union Bridge, and Westminster, the County Seat.

Carroll County is located within the Baltimore–Columbia–Towson Metropolitan Statistical Area, also known as Central Maryland, which has over 2.7 million people. The area also includes Baltimore City, Anne Arundel County, Baltimore County, Harford County, Howard County, and Queen Anne’s County.

The Carroll County Seal

The Carroll County Seal was established in the minutes of the Commissioners of Tax for Carroll County on June 5, 1837 and became the County's official seal on July 1, 1977. The seal consists of "three concentric circles, with the inscription 'Carroll County Maryland' inserted between the inner and middle circles also having two stylized six-leaved blossoms located, one each, on opposite sides of the same space between the inner and middle circle, also within the inner circle is a replica of the four-horse freight wagon with the year 1837 imposed above the wagon." When legislation was enacted, effective July 1, 1977, there was no mention of colors for the seal, although the colors used are red, white, blue, and brown.

Attractions

Carroll County Farm Museum

The Carroll County Farm Museum presents rural life as it was in the 19th century. In addition to the main house, built in 1852, the 140-acre museum includes barns, a smokehouse, springhouse, blacksmith shop, craftsmen's workshops, and exhibit areas that contain an

abundance of early farm memorabilia. Farm animals add to the authenticity of the setting. Rental facilities are available for meetings, company picnics, family reunions, weddings, and receptions. For more information on the Farm Museum, refer to:

Historical Society of Carroll County

The Historical Society of Carroll County, founded in 1939, owns three historic properties on East Main Street in Westminster. The 1807 Sherman-Fisher-Shellman house is furnished to interpret the lives of the first owner, Jacob Sherman, and his family who lived in the house from 1807-1840. The adjacent Kimmey House serves as the main office building, and is home to the ADA accessible research library, the Museum Shop and Bookstore, and the Shriver-Weybright

Gallery where exhibits detail the history of Carroll County and its residents.

Cockey's Tavern houses the Koontz-Yingling Learning Center, and provides office and meeting space with ADA accessible bathrooms and a lift. The third floor also houses storage for educational and programmatic materials.

Emerald Hill building, located at 1838 Emerald Hill Lane in Westminster, provides auxiliary space for exhibits and programs, and is used in conjunction with the Celebrating America initiative. For more information on the Historical Society of Carroll County, refer to: <http://hsccmd.org/>.

Strawbridge Shrine

In the Wakefield Valley/New Windsor area of Carroll County, Robert Strawbridge formed the first Methodist class in America and built the first log meeting house around 1763. Although without official sanction, American Methodists first received Baptism and Holy Communion by his hand. The Strawbridge House was designated a National Methodist Shrine by the General Conference of 1940, and was purchased by the Strawbridge Shrine Association in 1973.

Today the Strawbridge House and farm, along with John Evans Meeting House Replica, are available for tours. For more information on the Strawbridge Shrine, refer to: <http://www.strawbridgeshrine.org>

Sykesville Colored Schoolhouse

The Sykesville Colored Schoolhouse was built between July and December 1903 at a cost of \$530.50. From January 1904 to May 1938, it was a one-room schoolhouse managed by local community trustees. During the time of segregation, it was used by children of the surrounding black community from both sides of the Patapsco River. This historic schoolhouse has been restored and furnished to its 1904 appearance. For more information on the Sykesville Colored Schoolhouse, refer to:

Union Mills Homestead and Grist Mill

The Union Mills Homestead began in 1797 when David and Andrew Shriver purchased a large tract of land along Big Pipe Creek. The site was perfect for the enterprises that the Shriver brothers hoped to start. The Big Pipe Creek provided an excellent source of water for a mill, the fertile valley was good farmland, and the surrounding rolling hills contained heavy stands of black oak, which could furnish tanbark for a tannery. Soon the brothers entered into a contract with Frederick County millwright, John Mong, to construct a set of mills: a grist mill and a saw mill. While the grist mill and saw mill were under construction, David and Andrew Shriver also started the main part of the house. To these early endeavors, the brothers added a tannery, cooper shop, and a blacksmith's shop, forming the beginning of an early industrial park. The growing enterprises soon took the name "Union Mills"

because of the partnership of the two brothers and their various businesses. The small settlement that grew around the Homestead also became known as Union Mills. For more information on the Union Mills Homestead, refer to: www.unionmills.org.

How Carroll County Government Operates

In Maryland, county governments may be organized as charter counties, code counties, or non-home-rule counties, and all act under limitations legislated by the State government. Carroll is a non-home-rule county governed by an elected five-member Board of County Commissioners, where each member is allowed one vote and they elect their own officers. The Board exercises the powers conferred upon it by the General Assembly of Maryland, including authorization to issue debt to finance capital projects.

The County Commissioners are elected for four-year terms (non-presidential election years). Each Commissioner is elected by district, with Carroll County divided by voting population into five districts. All County Commissioners must live within Carroll County and be a resident within their elected district.

Among the Commissioners' duties are: establishing policy, adopting Operating and Capital budgets, setting tax rates, levying and collecting taxes, appointing commissions and boards, approving ordinances and resolutions, and recommending legislation to the State Delegation. Positions at the cabinet level are appointed by the Board of Commissioners. These positions represent the top level of management for Carroll County and report directly to the Board. The Commissioners also appoint residents to various County advisory boards that make policy recommendations. In addition, the County Commissioners serve as the County's chief elected officials in dealing with other counties, the State, and Federal governments.

The Board of County Commissioners approves the County Operating and Capital Budgets after agencies submit their requests, and after a public hearing has been conducted. The budget ordinance must be adopted before June 1.

Federal and State funds contribute a percentage of the cost of education, social services, Health Department, aging programs, emergency services, agricultural extension services, and other programs.

Carroll County's eight incorporated municipalities function as autonomous units of local government. They are Hampstead, Manchester, Mt. Airy, New Windsor, Sykesville, Taneytown, Union Bridge, and Westminster. The towns provide vital services, operate their own water and sewer systems (with the exception of Hampstead and Sykesville), and provide police protection (with the exception of New Windsor and Union Bridge). The municipalities derive operating revenue from water/sewer user fees, town taxes (rates are set by the councils under State guidelines), and fees for miscellaneous permits and assessments.

The Budget Process

The budget has several major purposes. It focuses the County's long-range plans and policies on services and programs, serves as a vehicle to communicate these plans to the public, details the costs of County services and programs, and outlines the revenues (taxes and fees) that support the County's services, including the rate of taxation for the coming fiscal year. Once the budget has been adopted by the Board of County Commissioners, it becomes a work plan of objectives to be accomplished during the next fiscal year.

Departments are accountable for budgetary control throughout the fiscal year. The Department of Management and Budget (DMB) examines expenditure patterns, compares the patterns to budget plans, and initiates corrective action, if necessary, during the fiscal year.

Budget development begins with revenue projections for the County for the upcoming fiscal year and the following five years. These revenue estimates will determine how much money is available to provide government services, including education, public safety, public facilities, community services, and other functions of government.

For the capital process, direction is sent to departments and agencies in July, to have their requests submitted to the Budget office in September.

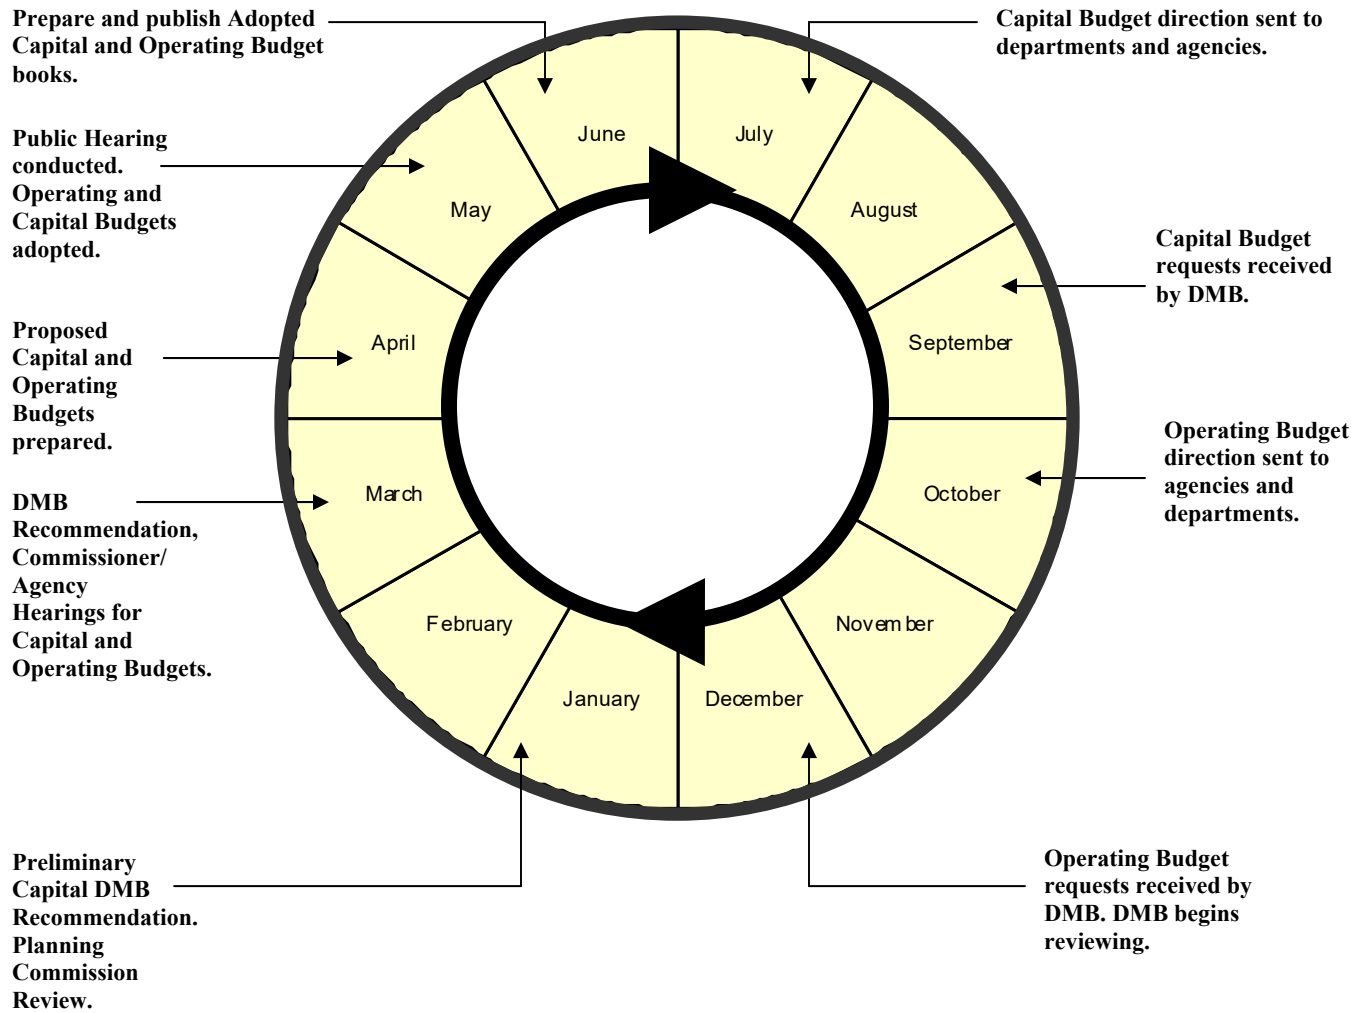

The Department of Management and Budget then prepares the Preliminary Recommended Capital Budget for the ensuing fiscal year and the next five fiscal years to present to the Planning and Zoning Commission for review and recommendation. The Commissioners, with the assistance of the Budget office, consider these recommendations in developing their Capital Budget.

The operating process begins by sending out the budget request package in October. Requests are submitted to the Budget office in December. In March, the DMB presents the Recommended Budget (Operating and Capital) and agency hearings occur. No later than April 30th, the County Commissioners release their Proposed Budget for public review and discussion. A public hearing is held in May on the Proposed Budget and the current tax levy. A ten-day waiting period is held for public comment.

The Annual Budget and Appropriation Ordinance must be adopted on or before the first day of the last month of the fiscal year currently ending. By the last day of June, each of the six libraries will contain the Adopted Operating and Capital Budget books for public review.

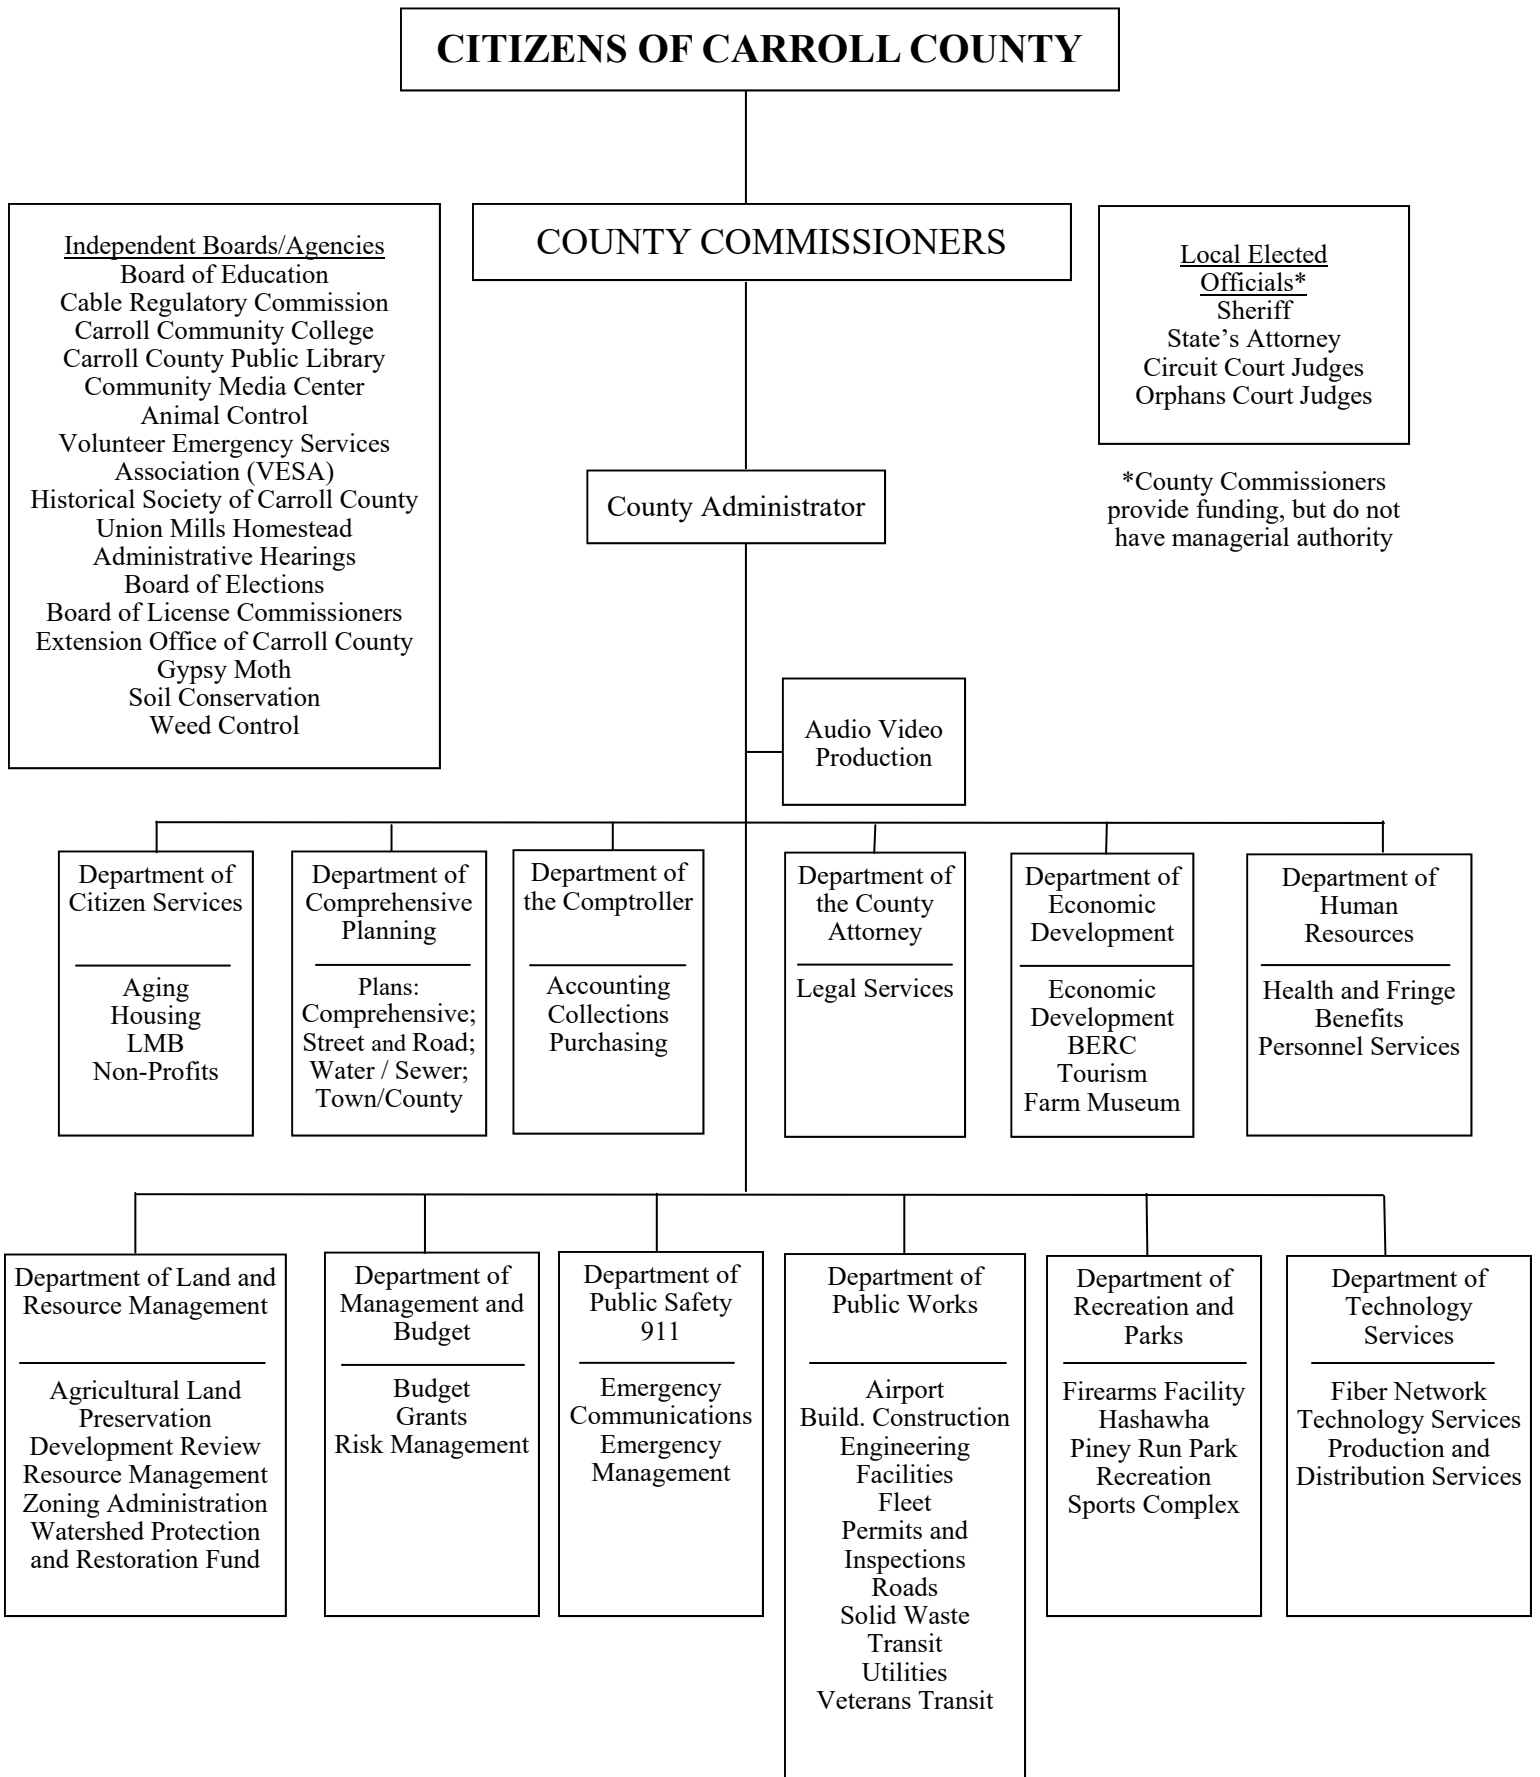

The Budget Process

The following diagram illustrates the budget phases which span the fiscal year that begins July 1.

Once the Budget is adopted, transfers within a fund can be made with the appropriate approval. However, the total Budget cannot be increased or decreased without a public hearing.

CARROLL COUNTY GOVERNMENT

Other Planning Processes Links

Other County planning processes have an impact on how Carroll County Government develops operating and capital budgets. The planning process that has the most impact on the budget is the County Comprehensive Plan, or Master Plan. The Department of Comprehensive Planning is responsible for developing and implementing the County Master Plan. Functions of the Department include Community Investment Plan review, site selection, and land banking for future schools, roads, and other public facilities.

The Department of Comprehensive Planning is responsible for comprehensive, county-wide master planning. Land use plans are made and implemented working with the Carroll County Planning and Zoning Commission authorized under the Land Use Article. These functions within Carroll County are designed to assure County projects and programs conform to the County Master Plan, that current and long-range County planning serve to implement the Plan, and that land use and policy decisions are in accordance with the Plan. Among the ways the Department fulfills this function are: water and sewer master planning, comprehensive planning for the County and incorporated towns and other functional plans for the County, major street and road planning, and serve as the town/county liaison planners.

Enterprise functions, such as water and sewer, solid waste management, and airport operations, develop long-term plans for handling future growth projections. Other planning functions include commercial/industrial building design expectations, land preservation, parks, and hazard mitigation.

Description and Structure of Funds

Carroll County Fund Structure

¹All funds are appropriated except for Agency Fund, which is included in the audited financial statements.

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Carroll County's fund structure consists of Governmental, Proprietary, and Fiduciary Funds.

Carroll uses the following ***Governmental Funds***:

The ***General Fund*** is the primary operating fund of the County, used to account for all financial resources except those required to be accounted for in another fund.

Revenue for the General Fund is generated by taxes such as Property, Income, and Recordation, which account for most of the total revenue. Expenditures for Public Schools, General Government, Public Safety, Public Works, Recreation and Culture, Public Library, and Carroll Community College account for most of the annually appropriated budgets.

The ***Capital Fund*** is used to account for financial resources related to the acquisition or construction of major capital facilities of the County (other than those financed by proprietary funds). A capital project is generally non-recurring in nature and may include the purchase of land, site development, engineering and design fees, construction, and equipment. Capital projects produce assets with a useful life of more than one year.

Revenue sources for capital projects can include the issue of bonds (long-term debt), General Fund dollars, Federal or State funding, developer Impact Fees, contributions from other funds, and donations from other sources.

The ***Grant Fund*** accounts for revenues that are formally restricted by law for a particular purpose or have specific requirements associated with the eligible program costs. Sources of funding include program fees, endowments, donations, and State and Federal dollars.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes.

Special Revenue Funds include:

The ***Hotel Rental Tax***, a percentage of hotel room rates paid by hotel guests, is used for tourism and promotion of the County.

The ***Watershed Protection and Restoration Fund*** provides for expenses related to stormwater management and compliance with the County's National Pollutant Discharge Elimination System (NPDES) permit. A portion of Property Tax revenue is dedicated to the fund on an annual basis.

Proprietary Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the cost of providing goods or services on a continuing basis be financed or recovered primarily through user charges.

Carroll uses the following ***Proprietary Funds***:

Internal Service Funds are used to account for certain risk financing activities. These funds account for Workers Compensation, general liability, vehicle and property insurance, and health benefit costs. Other County funds make payments to the Internal Service Funds, and expenses are partially offset by employee contributions.

Enterprise Funds:

The ***Airport Enterprise Fund*** accounts for Carroll County Regional Airport operations and the corporate hangar facilities, as well as construction or acquisition of capital assets, and related debt service costs. Sources of funding include fuel sales, corporate hangar rental, and other rents.

The ***Fiber Network Enterprise Fund*** accounts for the operation and infrastructure development of the Carroll County Fiber Network. The primary source of funding is dark fiber leases.

The ***Firearms Enterprise Fund*** accounts for the operations, construction or acquisition of capital assets, and related debt service costs of the Hap Baker Firearms Facility, located at the Northern Landfill. Sources of funding include user fees, brass recycle fees, and interest income.

The ***Septage Enterprise Fund*** provides septage waste disposal services. This fund accounts for the operations, construction or acquisition of capital assets, and related debt service costs. The primary source of funding is septage processing fees.

The ***Solid Waste Enterprise Fund*** provides solid waste disposal facilities for residential and commercial use. This fund accounts for the operations, construction or acquisition of capital assets, and related debt service costs of the landfill facilities. Sources of funding include tipping fees, rents, and interest income.

The ***Utilities Enterprise Fund*** provides water and sewer services in several areas within the County. This fund accounts for the operations, construction or acquisition of capital assets, and related debt service costs of the water and sewer facilities. Sources of funding include fees for water and sewer usage, rents, and interest income.

Fiduciary Funds are used to account for resources held for the benefit of parties outside the government.

Carroll uses the following ***Fiduciary Funds***:

Trust Funds:

The ***Pension Trust Fund*** was established during FY 04 to account for the activities of the Carroll County Employee Retirement Plan, which accumulates resources for pension benefit payments to qualified employees. The plan accumulates funding from member contributions, County contributions, and the earnings and profits from investments; it makes disbursements for

employee retirements, withdrawals, disability and death benefits, as well as for administrative expenses.

The ***Length of Service Award Program (LOSAP) Fund*** was established during FY 04 to account for the benefit program for the volunteer fire personnel serving the various independent volunteer fire companies in the County. While treated as a trust fund, it is not a legally established trust.

The ***Certified Law Officers Pension Trust*** was established during FY 10 to hold assets of the Carroll County Certified Law Officers Pension Plan for eligible certified law officers of the Carroll County Sheriff's Office. The plan accumulates funding from member contributions, County contributions, and the earnings and profits from investments; it makes disbursements for employee retirements, withdrawals, disability and death benefits, as well as for administrative expenses.

The ***Other Post Employment Benefits (OPEB) Fund***, established in FY 07, accounts for retiree contributions and County contributions to provide health benefits for eligible retirees. The plan also accounts for the earnings from investments, as well as disbursements made for medical premiums, payment of medical claims, and administrative expenses.

The ***Agency Fund*** is used to account for assets that the County holds on behalf of others as their agent. The Agency Fund is custodial in nature and does not involve measurement of results of operations. The Carroll County Development Corporation Fund accounts for the transactions for economic development receivables collected by the County on behalf of a local nonprofit corporation, and the Carroll Regulatory Commission administers the Cable franchise agreement for the County and eight towns.

Long-Term Financial Policies

Carroll County Government uses a set of guidelines in the development of the annual budget. The goal of the Commissioners is to develop an annual budget that provides high-quality services and infrastructure to the citizens of Carroll County while maintaining financial stability. The financial guidelines are listed below:

Balanced Budget

The County will adopt a balanced budget on a fund basis. A balanced budget is achieved when revenues plus use of fund balance equals expenditures. All funds are balanced except for the pension fund. The pension fund states employee pension assets and liabilities and is reported in the County's Audited Financial Statements.

Basis of Budgeting

The basis of budgeting, as well as the basis of accounting, is tied directly to an entity's measurement focus of revenues and expenses (expenditures). Carroll County uses the same measurement focus when preparing budgets as accounting does when preparing its financial statements. Funds that focus on current financial resources, primarily governmental funds, use the modified accrual basis of accounting. Revenues are recognized when earned, but only to the extent they are available, and expenditures are recognized when due. Funds that focus on total economic resources, primarily proprietary, pension trust, and internal service funds, use the accrual basis of accounting. Revenues are recognized as soon as they are earned and expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash inflows or outflows.

- The County budgets the following governmental funds using the modified accrual basis of accounting:
 - General Fund
 - Capital Fund
 - Grant Fund
 - Special Revenue Fund
 - Hotel Rental Tax
 - Watershed Protection and Restoration Fund
- The County budgets the following funds using the accrual basis of accounting:
 - Enterprise Funds
 - Airport
 - Fiber Network
 - Firearms
 - Septage
 - Solid Waste
 - Utilities
 - Internal Service Funds

- Trust Funds
 - OPEB Fund
 - Employee Pension Trust Fund
 - Certified Law Officers Pension Trust Fund
 - Length of Service Award Program Fund
- Agency Funds

Multi-Year Financial Forecasting

- The County maintains a balanced six-year Operating Plan and a Community Investment Plan (CIP) for expenditures built on projected revenues. The development of six-year plans allows the County to evaluate the impact of current decisions on the long-term financial position of the County.
- Six-year Operating Plans for all of the Enterprise Funds continue to be developed with expenditures built on projected revenues.
- Historically, 1% of budgeted revenues from the current year are considered as ongoing funding for the projected budget two years out. Any remaining fund balance will be considered as one-time funding.

Monthly Financial Reporting

County staff review all fund revenues and expenditures monthly, more frequently when conditions warrant, and report to the Commissioners on a quarterly basis. Staff review the current economic conditions and political environment, and assess the impact on the current and/or future fiscal years.

Budget Appropriation Transfers

Once the Budget is adopted, transfers within a fund can be made with the appropriate approval. However, the total Budget cannot be increased or decreased without a public hearing.

Capital Budget

- The County commits approximately 3% of Property Tax as paygo funding in the CIP. Other paygo funding includes Income Tax Revenue, Property Tax Revenue, Impact Fees, and Agricultural Transfer Tax.
- No capital project request is considered without an estimated operating impact. Operating impacts are integrated into the six-year Operating Plan after being developed and refined with the assistance of the Department of Management and Budget.

Investment Management

- The comprehensive Carroll County investment policy addresses the following areas:
 - Scope, prudence, and objectives
 - Delegation of authority
 - Ethics and conflicts of interest
 - Authorized financial dealers and institutions, and diversification in authorized and suitable investments
 - Collateralization

- Safekeeping, custody, and internal controls
- Performance standards, reporting requirements, and policy adoption
- It is the policy of Carroll County, Maryland to invest public funds in a manner which will conform to all State of Maryland and County statutes governing the investment of public funds while meeting its daily cash flow demands, and providing a return at least equal to the three-month Treasury bill yield.
- The investment policy applies to all financial assets of the County. These funds are accounted for in the County's Comprehensive Annual Financial Report and include:
 - General Fund
 - Special Revenue Fund
 - Capital Fund
 - Enterprise Funds
 - Internal Service Funds
 - Any new funds as provided by County ordinance
- The primary objectives, in priority order, of the County's investment activities shall be:
 - **Safety:** Safety of principal is the foremost objective of the investment program. Investments of the County shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, diversification, third-party collateralization and safekeeping, and delivery versus payment will be required.
 - **Liquidity:** The County's investment portfolio will remain sufficiently liquid to enable the County to meet all operating requirements which might be reasonably anticipated.
 - **Return on Investment:** The County's investment portfolio shall be designed with the objective of attaining a return at least equal to the three-month U.S. Treasury bill yield.

Stabilization Arrangement Policy Resolution

- **Purpose:** It is in the best interest of the citizens of Carroll County that a portion of the General Fund balance be set aside in a Stabilization Arrangement in order to provide a reserve against certain specified conditions. These conditions include a sudden and unexpected drop in revenues, and/or unforeseen emergencies including unanticipated expenditures of a nonrecurring nature. Also, a Stabilization Arrangement provides a financial cushion against unanticipated adverse financial or economic circumstances that could lead to budget deficits.
- **Authority to Establish a Stabilization Arrangement:** The Board of County Commissioners shall authorize the establishment of a Stabilization Arrangement by Resolution to adopt the Stabilization Arrangement Policy.

The Board of County Commissioners shall authorize the Comptroller and the Director of Management and Budget to establish the Stabilization Arrangement.

The Stabilization Arrangement will be continuing and non-lapsing.

- **Stabilization Arrangement Size:** The Stabilization Arrangement must be a minimum of 5% of the upcoming fiscal year Adopted General Fund Budget.

The Stabilization Arrangement is in addition to the Surplus Funds as outlined in 3-601, 19 in the Code of Public Local Laws and Ordinances.

- **Contributions to the Stabilization Arrangement:** The Board of County Commissioners authorizes the Comptroller and the Director of Management and Budget to maintain a minimum balance of 5% of the upcoming fiscal year Adopted General Fund Budget.

The Comptroller must transfer the contributions from the General Fund to the Stabilization Arrangement after the Budget is adopted for the upcoming year, but before the end of the current fiscal year.

- **Conditions under which Stabilization Arrangement may be spent:** Appropriations from the Stabilization Arrangement require a Resolution from the Board of County Commissioners. No appropriation from the Arrangement will occur without prior presentation to the Board of County Commissioners by the Comptroller and Director of Management and Budget with a plan and timeline for replenishing the Arrangement to its minimum 5% level.

Requests for appropriations from the Stabilization Arrangement occur only after exhausting current year's budgetary flexibility and spending of the current year's appropriated contingency.

Circumstances where the Stabilization Arrangement can be spent are:

- 1.) Unanticipated General Fund revenues in total fall more than 1% below the original projected revenues, and actual revenues for two of the following major revenue sources are projected in the current year to fall below the actual amount from the prior year:
 - Property Taxes
 - Income Tax
 - Recordation Tax
 - State Shared Taxes
 - Investment Interest
- 2.) The following events create significant financial difficulty for the County and are in excess of the current year's appropriated contingency:
 - Declaration of a State of Emergency by the Governor of Maryland
 - Unanticipated expenditures as a result of legislative changes from State/Federal governments in the current fiscal year
 - Acts of Terrorism declared by the Governor of Maryland or the President of the United States
 - Acts of Nature which are infrequent in occurrence and unusual in nature.

Debt Management

Debt Management

Capital Expenditures vs. Current Expenditures

Local government expenditures can be broadly categorized as either current or capital. Generally, current expenditures are related to ongoing operations or purchases that are relatively inexpensive or short lived. Capital expenditures tend to be for one-time, relatively high costs, or for long-lived assets. There is not a perfectly clear line separating current and capital expenditures, but current expenditures should be funded with current sources of revenue and it may be appropriate to fund capital expenditures with current revenue and/or debt financing. When debt financing is used, it is important that the useful life of the asset exceed the time necessary to pay for the asset. Carroll County's operating expenditures are entirely funded by current revenue. A mix of sources, such as bonds, grants, and paygo funding, is used to fund capital projects.

Paying for Capital Assets

There are two general approaches to paying for capital assets: paygo, or using current resources to pay as the expenditure occurs, and debt financing, paying over time as the asset is used. Paygo funding creates no long-term obligation, but may require years of saving, which delays addressing a need. Paygo funding places the entire burden on the existing taxpayer, even though a long-lived asset may benefit new taxpayers in future years. Debt financing commits the County to a long-term obligation and increases the cost of the funding, but allows timely filling of needs and spreads the cost of an asset over a larger number of taxpayers who will benefit from its use. To benefit from the advantages of each of these approaches, Carroll County uses a mix of paygo and debt funding in the Capital Budget.

Bonds

For local governments, financing with long-term debt usually means issuing bonds. A bond is like a mortgage; it is written evidence of the issuer's obligation to repay a specified principal amount on a certain date (maturity date), together with interest at a stated rate, or according to a formula for determining that rate.

General obligation bonds are used when the capital project is beneficial to the community. Examples would be expenditures for law enforcement, fire protection, education, community facilities, or roads and bridges. The payments are financed by the taxpayers of the issuing government because general obligation bonds are secured unconditionally by the full faith, credit, and taxing powers of the issuing government. These bonds typically carry high credit ratings with correspondingly low risk.

Serial bonds are a package of individual bonds with each bond potentially having a different maturity than the rest. Typically, a municipal serial bond issue has maturities ranging from one year to more than twenty years. General obligation bond issues are usually entirely in serial form.

Debt Retirement

As of June 30, 2018, 71.4% of long-term debt owed by the County will be retired within ten years and 41.2% will be retired in five years. New Public Improvement Bonds issued in November 2018 have an aggregate principal amount of \$25.0 million of new bonds.

Rating Agencies

There are currently three credit rating agencies used by Carroll County: Moody's, Fitch, and Standard & Poor's. These agencies tackle the difficult task of evaluating municipal bond issues in light of demographic, economic, financial, and debt factors. The result of the evaluation process is a "rating" that is assigned to the bond issue. Ratings generally measure the probability of the timely repayment of principal and interest on municipal bonds. The higher the credit rating assigned to the issue, the lower the interest rate the County will need to attract investors.

The following table displays the various rating categories used by the rating agencies:

Moody's ¹	Standard & Poor's ²	Fitch	Description
Aaa	AAA	AAA	Highest quality, extremely strong capacity to pay
Aa	AA	AA	High quality, very strong capacity to pay
A	A	A	Upper medium quality, strong capacity to pay
Baa	BBB	BBB	Medium quality, adequate capacity to pay
Ba	BB	BB	Questionable quality, low capacity to pay

¹Relative ranking within a range may be designated by a 1, 2, or 3.

²Relative ranking within a range may be designated by a + or -.

Credit evaluation, to some extent, is subjective which may result in different analysts looking at different data or assigning different weight to the same data. The rating agencies do not necessarily give the same credit ratings to the same bond issues.

Ratings are initially made before issuance and are continuously reviewed and amended as necessary to reflect change in the issuer's credit position. According to the rating agencies, Carroll County demonstrates very strong credit worthiness. Moody's has assigned Carroll County a rating of **Aaa**, Standard & Poor's **AAA**, and Fitch **AAA**. These high ratings allow Carroll County to benefit from lower interest rates for capital projects financed with long-term debt issues. The County's goal is to maintain our current bond ratings in order to minimize borrowing costs.

Sale of Bonds

Bonds are sold to investors through the services of an underwriter. Underwriters buy the entire bond issue from the issuer and then resell the individual bonds to investors. Since they assume the responsibility of distributing the bonds, they risk having to sell the bonds at a price below the purchase price and thus may realize a loss.

The financial advisor helps the issuer design the bond issue in terms of maturity dates, maturity amounts, and call provisions; prepares the official statement; selects an appropriate time to mark the issue; and complies with legal requirements.

Carroll County historically uses a competitive bid process to sell its bonds. This means that at a specified date and time, bids are accepted from various underwriters. The underwriter submitting the lowest bid (interest rate) is selected to purchase the bonds. Within a few days of the bond purchase, the underwriter sells the bonds to various investors.

Debt Affordability

Carroll County does not have a legal debt limit. The County uses a debt affordability model to evaluate the County's ability to support debt. The model establishes guidelines for the amount of debt the County can initiate each year, and projects the effects of that financing through six years of the CIP.

Debt affordability measures a number of criteria, such as total debt to assessable base and debt service to General Fund revenue, and compares the projected ratios to guideline ratios. The model takes into account potential changes in revenue and interest. The model distinguishes between direct debt (i.e., debt to be paid with General Fund revenue) and indirect debt (i.e., debt that is backed by the government but with an associated revenue stream separate from the General Fund).

Fund Balance

Explanation of Fund Balance

Governmental funds report the difference between their assets and liabilities as fund balance. In February 2009, The Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, requiring implementation by June 30, 2011. This GASB standard does not affect the calculation of fund balance, but fundamentally alters the various components used to report it. Fund balance is now divided as follows:

1. Nonspendable
2. Restricted
3. Committed
4. Assigned
5. Unassigned

Nonspendable funds are not in a spendable form or must be maintained intact. Examples are inventories, prepaid expenses, and loans to various agencies.

Restricted funds can be used only for the specific purposes as stipulated by external creditors, grantors, or laws of other governments; constitutionally; or through enabling legislation.

Committed funds are those constrained by limitations that the government imposes on itself at the highest level of decision-making authority. Commitments may be changed or lifted only by the same formal action that imposed the original constraint.

Assigned funds are intended to be used by the government for a specific purpose. This intention can be expressed by the governing body, an official, or a body to which the governing body delegates the authority.

Unassigned funds are technically available for any purpose. Carroll's consists of anticipated current year unassigned funds.

All Funds Budget

The All Funds Budget consists of thirteen funds. When appropriations are transferred from one fund to another, the appropriation is recorded in both. This creates double counting of appropriations and artificially increases the All Funds Budget. For example, in FY 20, \$4.7M of General Fund dollars is transferred to the Capital Fund to provide paygo funding to the Community Investment Plan (CIP). This is reflected in the General Fund as an Interfund Transfer to Capital of \$4.7M and in the Capital Fund as revenue of \$4.7M. In order to capture the total budget without the double-counted appropriations, certain transfers and reappropriations of funds from prior years (listed below) need to be netted out of the All Funds Budget.

All Funds Revenue Summary

All Funds revenue is projected to be \$548.1M in FY 20 with 69.9% of this amount coming from Property Taxes and Income Tax. Total revenue is \$20.9M, or 3.7%, below FY 19. This decrease is driven primarily by a reduction in the Capital Fund in FY 20.

Following are explanations of each of these revenues. Additional details about the source of these revenues and the processes used to arrive at the budgeted amounts can be found in the various fund sections.

Top 5 All Fund Revenues

Property Taxes

Largest revenue at 39.9% of the total. Property Tax includes twelve separate taxes, credits, and charges; the most significant is Real Property Tax. The Board of County Commissioners reduced Real Property Tax in FY 12 from \$1.048 per one hundred dollars of assessed value to \$1.028, and then to \$1.018 in FY 13.

The Personal Property Tax rate was also lowered in FY 12 from \$2.62 per one hundred dollars of assessed value to \$2.57, and then to \$2.545 in FY 13. The Board of County Commissioners lowered the Personal Property Tax in FY 14 to \$2.515 per one hundred dollars, or a three-cent reduction from FY 13.

In FY 15, the Commissioners issued a Property Tax rebate of \$0.01 per \$100 of assessment, or approximately \$1.8M. The Homestead Tax Credit was significant in recent years, but due to five years of negative reassessments this credit is greatly reduced. This credit is set by the Board of County Commissioners and caps the amount that taxes can increase on a primary residence at 5.0% a year. Property Tax is primarily a General Fund revenue; however, a portion is dedicated to agricultural land preservation.

Property Taxes are estimated by several methods, including trend analysis, economic analysis, real estate analysis, and assessments provided by the Maryland Department of Assessment and Taxation. Full detail is provided on their website which can be accessed at: <http://dat.maryland.gov/Pages/default.aspx>.

Income Tax

Second largest revenue at 29.9% of the total. Income Tax is calculated as a percentage of net taxable State income. The State caps the rate at 3.20%. The Commissioners lowered the Income Tax rate from 3.05% to 3.04% in FY 14. In FY 15 the Commissioners again lowered the Income Tax rate by 0.01%, from 3.04% to 3.03%, effective on January 1st, 2015. The State Comptroller's Office administers, collects, and distributes this tax to the counties and municipalities. Income Tax is primarily a General Fund revenue; however, 9.09% of Income Tax is traditionally dedicated to the capital budget for school construction and debt service. The Commissioners elected to reduce this amount to 7.09% in FY 16 and FY 17, to 7.59% in FY 18, and to 8.09% in FY 19, returning to 9.09% in FY 20.

The budget for Income Tax is based on several factors, including a trend analysis of recent distributions, economic analysis of changes made at the State level, the local and national economies, and estimates provided by the State Comptroller's Office.

Bonds/Notes Proceeds

Third largest revenue at 5.1% of the total. The County issues general obligation bonds to provide funds for construction of major capital facilities such as libraries, senior centers, and schools. Bonds are obligations of the County for which its full faith and credit are pledged. Principal sources of repayment for the bonds are general revenues of the County including Property Taxes

and Income Taxes. Bonds issued for enterprise funds, while still general obligation bonds, are expected to be paid from enterprise fund revenues, such as Area Connection Charges or rents.

Bonds are not budgeted in the same way as other revenues. How much debt issued is based on several factors: debt affordability guidelines; our six-year Operating Plan; availability of paygo funds; as well as the need for and timing of capital projects. In FY 20, the Commissioners are using a \$34.8M bond sale to fund capital projects.

Charges for Services

Fourth largest revenue at 4.7% of revenue. The intent, unless otherwise determined, is that certain activities and services pay for themselves through user fees, and are not supported through general tax dollars or other non-related revenue sources.

In the Enterprise Fund, the primary sources of revenue are water and sewer usage fees, Area Connection Charges, tipping fees, and airport fuel sales and rental fees. Trend analysis is used in combination with rate modeling to more accurately determine future revenue streams.

For the General Fund and the Grant Fund, the primary sources of revenue are related to Public Safety and Corrections, Public Works, Recreation, and General Government. Fees come from various sources related to building inspections, permitting and review fees, as well as admission and concessions fees at County parks. Trend analysis is used to determine revenue projections based on the current rate and fee structure. Additionally, fee analysis is performed to determine if the current rate and fee structure needs to be adjusted in order to meet actual costs incurred. Rate studies are also performed for fees reimbursed by the State or Federal government to ensure accuracy.

Intergovernmental (State and Federal)

Fifth largest revenue at 4.6% of the total. The County receives Federal and State funding for several purposes, including school and bridge construction, environmental projects, grants, and reimbursements. State and Federal funding is used primarily in the General, Capital, and Grant Funds. The Grant Fund includes more than \$16.4M in various Federal and State funds, including County match of \$1.9M, to support programs such as housing, transit, meals and rental subsidies to the elderly, handicapped, disabled, and low-income families.

The methods of budgeting State and Federal funds are varied. In some cases, particularly construction funding, there is a specific appropriation in the State budget. In cases where there is not a specific amount, such as Highway User Revenue, which is formula based, estimates are provided by the government agency that oversees the revenue. Other revenues, such as grants, are usually subject to a combination of trend analysis and informed opinion.

Remaining All Fund Revenues

Other Revenues

3.9% of the total. This group includes revenues from the General, Capital, Grant, Enterprise, and Trust Funds. These revenues are budgeted based on numerous methods, including trend analysis, economic analysis, and estimates provided by State and Federal agencies.

Other Local Taxes

3.6% of the total. This includes Recordation, 911 Fees, Impact Fees, and Admission Fees. Recordation makes up about 90.0% of these fees. Trend analysis, current housing market, and opinions from industry experts are the sources of this budget.

Interfund Transfers

3.5% of the total. Due to governmental accounting requirements, revenues that are transferred between funds are shown twice. For instance, Hotel Rental Tax originates in the Special Revenue Fund. When Hotel Rental Tax is used it must be transferred from the Special Revenue Fund to the General Fund. This means that using \$0.1M of Hotel Rental Tax will actually add \$0.2M to the All Funds revenue total. Each fund, Special Revenue and General Fund, will show that \$0.1M. Other interfund revenues do not involve Special Revenues, and include General Fund transfers to Grants, Capital, and Enterprise Funds. The emphasis is on the General Fund as a whole.

Prior Year Unappropriated

1.7% of the total. This is the amount of revenue in excess of budget plus the amount of unspent appropriated dollars. Prior to FY 15, Carroll County law required that surplus funds be budgeted as revenue in the next fiscal year. During the FY 14 Legislative process, the law was changed for Carroll County effective October 1, 2013. \$8.1M of surplus is in the FY 20 Budget.

State Shared

1.0% of the total. The State provides Police Aid, Program Open Space, and Highway User Revenues. Budgets for these are based on State estimates, as well as our own economic and legislative analysis.

Interest & Gain/Loss

0.8% of the total. The primary source of this revenue is interest earned on investments. The budget is based on economic and monetary analysis, as well as consultation with the County's Investment Officer.

Reallocated Funds

0.6% of the total. These funds may consist of reallocated bonds, reallocated General Fund transfer, and reallocated Property Taxes. These funds were previously appropriated to various projects that either came in under budget, or the decision was made not to move forward with the projects. These sources of funding are being reallocated to projects included in the FY 20 budget.

In FY 20, a total of \$3.4M in bonds and current funding is being reallocated for various capital projects, such as road paving. The amount that we can reallocate depends on several factors, including projects that were completed under budget or projects that were eliminated. The very nature of these types of decisions prevents it from being predictable or consistent with previous years.

Capital Contribution – Business-Type Activities

0.4% of the total. This category is based on specific and dedicated revenues that are budgeted to capital projects in the enterprise funds. These revenues are based on appropriations budgeted to fund capital projects and do not reflect revenues that are necessarily collected in FY 20.

Licenses & Permits

0.3% of the total. Fees charged for the various services requested by residents and contractors. These revenues are budgeted based on numerous methods, including trend analysis, economic analysis, and real estate market analysis.

Top 5 General Fund Revenues

Real Property Tax

Largest Revenue Source at 47.3% of Total. The Real Property Tax group includes nine separate taxes, credits, and charges. The two most significant are the Real Property Tax and the Homestead Tax Credit.

Properties are assessed by the Maryland Department of Assessment and Taxation while the Board of County Commissioners sets the Property Tax rate. Applying the County tax rate to the State assessment determines the amount of taxes owed.

For assessment purposes, the State divides Carroll County into three assessment groups, as follows:

Group 1	New Windsor, Franklin, Mt. Airy, Berrett, and Freedom
Group 2	Myers, Manchester, Hampstead, and Woolerys
Group 3	Taneytown, Middleburg, Uniontown, Westminster, and Union Bridge

In FY 12 the Board of Commissioners lowered the rate from \$1.048 per one hundred dollars of assessed value to \$1.028. In FY 13 the Board lowered it again to \$1.018. In FY 15 the Commissioners adopted a \$.01 per \$100 of assessed value Property Tax rebate. Each year the State reassesses one group, resulting in a complete reassessment of the County every three years. The Homestead Tax Credit, set by the County Commissioners, limits annual tax bill increases to no more than 5.0% each year. Only primary residences are eligible for this credit. Decreased assessments, regardless of the property type, are fully applied in the first year. The total of the assessed values of local property is the County's assessable base, which can change through reassessment and the loss or gain of buildings and personal property.

In order to determine our revenue projection, we consider various sources of information. The first source is the Maryland State Department of Assessments and Taxation (SDAT). They provide assessment estimates in November and March for the current and upcoming year. These estimates are the primary source for our Property Tax projections and can be accessed at <http://dat.maryland.gov/Pages/Assessable-Base-Report.aspx>. Secondary sources of information are building permit activity reports, recordation reports, and real estate sales information. These reports, along with prior year data, are reviewed in order to properly perform a trend analysis. These trends provide the foundation for projecting the remainder of the current fiscal year and for planning in future fiscal years.

The assessable base includes three major categories of assessment: residential property, commercial and industrial property, and agricultural property. Typically, residential properties increase demand for services. Commercial/industrial and agricultural properties generally pay more in taxes than the cost of the services they require. A strong commercial/industrial base can relieve the tax burden on residents. Conversely, a relatively small commercial/industrial base increases the burden to residential taxpayers, often constraining the level of services that can be offered at a given tax rate. Immediately following this revenue summary is a three-year chart showing Carroll County in comparison to the assessable bases of other counties and Baltimore City.

The booming real estate market of the early 2000s began to cool down in 2006, and by 2008 the market had slowed significantly. However, primarily due to the impact of the Homestead Tax Credit, and to a lesser extent growth in reassessments, Property Tax revenue remained fairly strong through FY 10. However, steep negative residential reassessments hit all three groups in FY 11, FY 12, and FY 13. FY 14 and FY 15 also had negative reassessments but a much smaller drop than FY 11 – 13. These drops wiped out most of the deferred Property Tax growth associated with the Homestead Tax Credit. As a result, future years are likely to experience slower Property Tax growth than recent years.

The Homestead Tax Credit limits tax increases for owner-occupied residential properties during times of high assessment growth. This cap was originally established in FY 96 at 10% as a way to limit the amount a Property Tax bill could increase. During FY 06, the Commissioners lowered this credit to 7%. By lowering this cap during a time of rising reassessments, a reserve of deferred growth was created. The thinking was that as assessments slowed or flattened, taxable assessments would catch up with actual assessments. The result was several years of 7% growth in Property Taxes. Whether assessments were rising, slowing, or flattening, the expectation was there would be a predictable growth pattern. In FY 11 the Commissioners lowered this credit to 5.0%.

The hope for a fairly steady growth pattern in Carroll was undercut by sharp decreases in assessments in all three Groups. From FY 11 to FY 13, reassessments dropped 19.2%, 19.6%, and 15.4%, respectively. FY 14 and FY 15 saw drops in reassessments of 3.8% and 3.0%. This combination of negative reassessments resulted in almost all of the Homestead Tax credit reserves being eliminated. These negative reassessments, combined with a \$0.02 Real Property Tax rate reduction in FY 12, and a \$0.01 reduction in FY 13, resulted in a decrease in tax revenue in FY 15. FY 16 showed the first positive reassessment in six years at 4.1%. FY 17, FY 18, FY19 and FY 20 also showed positive reassessment of 6.0%, 5.3%, 7.1% and 8.0%, respectively, resulting in growth in Real Property Tax revenue. The expectation for FY 21 – 25 is to see modest assessment growth of 2.0% – 3.0%.

The graph below shows the average reassessment of the individual groups. As mentioned above, one-third of the County is assessed each year. Each point on the graph is the average reassessment of one of the three areas. The graph also illustrates the cyclical nature of property assessments.

Carroll County Assessments

Income Tax

Second Largest Revenue Source at 36.2% of Total. Income Tax is calculated as a percentage of net taxable State income. The State cap for Income Tax is 3.20%. The Board of County Commissioners lowered the tax rate from 3.05% to 3.04% effective January 1, 2014. The Commissioners also lowered the rate an additional 0.01% to 3.03% effective January 1, 2015. The State Comptroller's Office administers, collects, and distributes this tax to the counties and municipalities.

Income Tax is primarily General Fund revenue; however, 9.09% of Income Tax is traditionally dedicated to the Capital Budget for school construction and debt service. The Commissioners reduced the percentage of Income Tax going to school capital and debt to 7.09% in FY 16 through FY 17, 7.59% in FY 18, and to 8.09% in FY 19, with dedicated funding returning to 9.09% in FY 20. The difference resulting from the reduction during these years will be used for the school operating budget.

The budget for Income Tax is based on several factors, including a trend analysis of recent distributions, economic analysis of changes made at the State level, the local and national economy, and estimates provided by the State Comptroller's Office. FY 20 is budgeted at \$151.8M, which is \$2.9M, or a 2.0% increase over the FY 19 Budget of \$148.9M. The growth is primarily due to the expected growth in major distributions, which includes withholdings and estimated payments. Historically, Carroll's growth has been higher than the State-wide figure. The main reasons are that Carroll's income levels are higher than the State-wide average, and Carroll's unemployment rate is lower than the state-wide average. In addition, a higher proportion of Carroll's Income Taxes come from withholding of wages and salaries.

Other jurisdictions in the State have a higher portion of their Income Taxes coming from estimated payments, which cover everything from small businesses to investments. Estimated payments and the income associated with them are more volatile and have fallen at a greater rate than wage and salaries.

Approximately 90% of Income Tax revenue is received in quarterly distributions of withholdings and estimated payments. The graph below shows the growth in the distributions from the same period in the prior year. After seeing a period of negative distributions, Carroll is now experiencing positive growth.

Growth on Quarterly Income Tax Distributions

Recordation

Third Largest Revenue Source at 3.4% of Total. Recordation Tax is calculated on the value of recorded mortgages, deeds, and other documents conveying title or creating liens on real and personal property. Recordation revenue is directly affected by the economy and housing market.

Recordation spiked in the middle part of the 2000s due to low interest rates, strong housing demand, and rapidly rising home values. This revenue reached an all-time high of \$22.8M in FY 06. However, with the struggling housing market, recordation plummeted from the high in FY 06 to a bottom of \$7.7M in FY 11. Recordation has improved since FY 11 and is expected to reach \$14.4M in FY 19. FY 20 is projected to show a minor decline due to flat activity, and is projected at \$14.32M.

In addition to the historical collection data referenced above, we also review predictions from experts within the housing industry to determine the proper level for Recordation. Finally, we look to the local real estate market, in particular accessing the Metropolitan Regional Information Systems database, which provides sales data on existing properties. Factors such as average home sale price, total units sold, average days on the market, and active listings were reviewed. Recordation revenue projections were lowered for FY 20 due to a recent downturn in the number of units sold.

	2016	2017	2018	% Change from 2017
Sold Dollar Volume	\$797.5M	\$810.2M	\$820.5M	1.3%
Average Sold Price	\$310,310	\$326,707	\$337,925	3.4%
Units Sold	2,570	2,480	2,428	(2.1%)

Ordinary Business

Fourth Largest Revenue Source at 1.9% of Total. All corporations are required to file Personal Property Tax returns with the State. The taxable value of personal property is based on its original value less an annual depreciation allowance multiplied by the current tax rate. The County Commissioners lowered this rate from \$2.62 per \$100 of assessed value in FY 11, to \$2.57 in FY 12, and then lowered it again to \$2.545 in FY 13. In FY 14, the Board of County Commissioners lowered the rate to \$2.515 per \$100 of assessed value. FY 20 is budgeted at \$8.1M, a slight decline from FY 19 which is forecast at \$8.2M. Commercial and manufacturing inventory, manufacturing machinery, farm implements, and livestock are exempt from local taxation. Ordinary business is influenced by the economy and growth in the commercial/industrial base. State provided assessment estimates can be accessed at <http://dat.maryland.gov/Pages/Assessable-Base-Report.aspx>.

Railroad and Public Utilities

Fifth Largest Revenue Source at 1.9% of Total. Property Taxes for railroads and public utilities are combined into one revenue. In FY 12 the Board of County Commissioners lowered the Personal and Real Property Tax rates from \$2.62 and \$1.048 per one hundred dollars of assessed value to \$2.57 and \$1.028, respectively. In FY 13 the Board lowered them further to \$2.545 and \$1.018. Prior to FY 14, the Personal Property Tax rate was set by the State at 2.5 times the Property Tax. In FY 14, the State of Maryland decoupled the Personal Property Tax rate from the Real Property Tax rate. The Personal Property Tax rate can be no more than 2.5 times the Real Property Tax rate. In FY 14, the Board of County Commissioners lowered the Personal Property Tax rate from \$2.545 to \$2.515 per \$100 assessed value, where it remains. The Real Property Tax rate is applied to railroad real property, while the Personal Tax Rate is applied to railroad personal property and to both the real and personal property of public utilities.

In Carroll County, approximately 80% of these collections come from two utility companies: BGE and Verizon. Railroad and public utilities revenue is anticipated to come in at \$7.8M for FY 19, and \$8.0M in FY 20 to FY 25. The State of Maryland assessment estimates can be accessed at <http://dat.maryland.gov/Pages/Statistics-Reports.aspx>.

Other Revenues of Note

Investment Income

The County invests revenue receipts until they are needed to pay for expenditures. Maryland State law dictates a conservative investment approach to protect taxpayers' money. Carroll County invests primarily in short-term investments such as Maryland Local Government Investment Pool, Bankers' Acceptances, Repurchase Agreements, U.S. Government Agency, and U.S. Government sponsored instruments.

This revenue budget is based on a combination of factors. First, a trend analysis is performed on historical portfolio balances and interest rates. Second, we review planned capital construction projects to determine when tax dollars appropriated are likely to be spent. This helps in determining if the portfolio balance may experience a material change beyond what the trend analysis reflects. Third, we review the current market conditions and follow the Federal Reserve pronouncements in order to determine the expected interest rate.

During FY 08 the housing market slowed dramatically. The Federal Reserve reacted by lowering the federal funds rate from 5.25% to 2.00%. During FY 09, as the economy continued to struggle, the rate was lowered several more times. Ultimately it reached the 0.0% – 0.25% target range. The Federal Reserve first raised interest rates in December 2015 to 0.25%-0.5%. Recent Federal Reserve interest rate hikes occurred quarterly from December 2017 to December 2018 bringing the interest rates to between 2.25% - 2.5%.

As a result of these rate reductions, short-term investment rates dropped. Callable investments were called early. Short-term investments were reinvested at lower rates while longer term investments haven't earned much more. These dramatic decreases have directly impacted our investment income. In FY 07 and 08 we collected \$8.6M. This amount dropped to \$4.0M in FY 09 followed by \$1.4M in FY 10 and \$1.1M in FY 11. FY 19 is projected at \$3.2M.

In FY 19, investment income is projected to increase to \$3.2M to correspond with the lifting of interest rates from the Federal Reserve. FY 20 is budgeted at \$3.6M, and is based primarily on maintaining a \$158.1M portfolio. The FY 20 weighted average rate of the current portfolio is 2.0%. This revenue also includes approximately \$0.46M annually in interest associated with older Installment Purchase Agreements.

911-Service Fee

The State of Maryland requires all counties to have an operational enhanced 911 system. In order to partially fund this expense, Carroll County imposes a monthly service fee of \$0.75 on all telephones, both cellular and landlines. FY 19 projection is \$1.8M. MD State legislation was passed, effective July 1, 2019, which applies a fee to each separate outbound call voice channel capacity, instead of each account. FY 20 revenue is projected at \$2.9M.

Cable Franchise Fee

The County charges a fee to Comcast for the ability to provide cable services in Carroll County. This fee is equal to five percent of specific categories of annual cable gross revenues. Forty percent of this amount is dedicated to funding the Community Media Center for Public, Educational, and Government programming. As part of the FY 16 budget process, the Commissioners elected to unrestrict the Cable Franchise Fee. For the first time in history, quarterly collections in FY 19 are coming in lower than planned. The assumed annual revenue growth has been reduced from 5% growth to 0%, or flat at \$1.8M throughout the plan.

Building Permits

Building permit fees are collected for construction and modification of residential and commercial/industrial buildings. Until FY 07, building permits generated at least \$1.0M annually; however, a combination of a housing market slowdown and changes in the Maryland Department of Environment's water requirements led to a significant reduction in revenue. FY 19 is forecast at \$0.5M. Based on current trends in the housing market, the budget for FY 20 is \$0.6M.

Other Annual Revenues

Annual revenues, ranging from licenses to park entrance fees, generate approximately 2.4% of total revenue. Individually, these revenues may experience varying levels of growth or decline. As a whole, revenues have shown slow growth over the past ten years. FY 19 is forecast at \$9.8M. FY 20 is budgeted at \$9.9M.

Other Revenues

Revenues that are not considered recurring are given separate recognition in the budget. Referred to as other revenues, or below the line revenues, these funds vary greatly from year to year. The largest component at \$10.2M in FY 20 is dedicated Local Income Tax revenue for Public School construction that is transferred from the Capital Fund to the General Fund to pay for school related debt service. The second largest is prior year unappropriated reserve, which is commonly referred to as the surplus, and is planned at \$9.3M in FY 20.

Operating Plan

Multi-Year Financial Forecasting

The County maintains a balanced six-year Operating Plan and Community Investment Plan based on projected revenues. The development of six-year plans allows the County to evaluate the impact of current decisions on the long-term financial position of the County and to plan for the impact of changes in the economic environment, laws, and regulations.

Six-Year Operating Revenue Forecast

Growth rates for Property Tax, our largest revenue, remain stable throughout the plan, ranging from 2.8 – 3.0%. This is slightly lower than previous projections due to lower than planned reassessment growth of Group 1 in FY 20. Due to housing data showing a recent slowdown in home sales, growth rates for other housing related revenues, such as recordation and building permits, were reduced from the FY 19 – 24 plan.

FY 19 Income Tax collections, the County's second largest revenue, are projected to come in at budget. Due to recent volatility in distributions and uncertainty of taxpayer behavior, gross Income Tax revenue growth was lowered from 4.5% to 3.8% in FY 20 and from 5.0% to 4.2% in FY 21 – 25.

The rebound of Investment Income is due to interest rate increases by the Federal Reserve. Projections in FY 21 – 25 are reduced from the previous plan following the Federal Reserve announcement of a reduction in the planned number of future interest rate increases.

Although revenue projections are based on reasonable expectations, if any one or more of the numerous variables change throughout the plan then the outcome will most likely change. The goal with the six-year operating plan is to adjust the plan as new information becomes available.

Six-Year Operating Expenditure Forecast

Projected Operating Plan expenditures are built on assumed growth rates, operating impacts of capital projects, projected debt service on known and planned debt issuance, and expenditures that are non-recurring in nature. Most expenditures, including personnel and general operating, are planned to grow at an assumed annual rate of 3.0%. Other expenditures, such as employee health benefits and Workers Compensation, have varying growth rates based on projected annual cost increases. Debt service is calculated by using known debt service amortization schedules and planned debt based on the anticipated timing of capital projects and assumed bond interest rates. Non-recurring costs, such as replacement furniture and equipment, are planned in the year they are expected to occur. The following table provides examples of growth assumptions incorporated into the six-year Operating Plan. The shift of unanticipated State costs to local government can change our expenditure plan quickly. The goal is to be aware of the potential actions from the State and adjust the plan as information becomes available.

Operating Impacts of Capital Projects

Operating impacts of capital projects are included in the Operating Plan. Operating impacts of a capital project are ongoing costs or savings that occur as a result of a capital project. An example of an operating impact is the expenditures that will result from the construction of Sheriff's Office – Eldersburg Precinct, including IT purchases, building insurance, and general maintenance. In recent years, due to fiscal constraints, the County has focused the Community

Investment Plan on maintaining existing infrastructure, such as roads and building maintenance projects.

Highlights, Changes, and Useful Information

- Carroll County Public Schools (CCPS) are under the control of the Board of Education of Carroll County, an elected board whose powers and duties are defined under State law. While the Board of County Commissioners has a funding obligation to the school system, they do not have any operational authority over it.
- Direct funding in FY 20 is \$5.7M over Maintenance of Effort (MOE). State law mandates that County governments spend the same amount per pupil, less one-time costs, from one year to the next. Each time a County government funds more than MOE, a new higher MOE is created.
- With the exception of FY 11, the school system has been funded above Maintenance of Effort every year since FY 97.
- In addition to the direct funding, the County provides in-kind support, including space and utilities at the Kessler Warehouse, use of Hashawha for Outdoor School, and water and sewer operations for four Board of Education facilities. Beginning FY 19, the County funded additional police officers as part of the School Resource Officer program through the Sheriff's Office.
- The County also provides the overwhelming majority of the funding for the school system's capital budget. In the Community Investment Plan, the County will provide \$150.3M of the total \$214.7M planned for school projects in FY 20 – 25.

Budget Changes

Beginning FY 17, due to a State-mandated change, teacher pension is part of the Carroll County Public Schools' direct funding of \$197.2M, and is now included in the Maintenance of Effort calculation.

Description

Since 1934, each of Maryland's 23 counties and Baltimore City has established its own local health department. From 2001 to 2009, local health departments were overseen by the Community Health Administration within the Department of Health and Mental Hygiene (DHMH). Beginning in July 2009, oversight responsibility was transferred to Public Health Services within DHMH in order to ensure basic public health services are provided in all parts of Maryland.

Under the direction of a local Health Officer, each local health department provides these services and administers and enforces State and local health laws and regulations in its jurisdiction. Programs meet the public health needs of the community and provide services not offered by the private sector. The local Health Officer is appointed jointly by the Secretary of Health and Mental Hygiene and the local governing body.

The Carroll County Health Department is located at 290 South Center Street in Westminster, MD. The County is mandated by law to provide the Health Department matching funds in support of the following Core programs:

- Communicable disease control services
- Environmental health services
- Family planning services
- Maternal and child health services
- Wellness promotional services
- Adult health and geriatric services
- Administration and communication services associated with the provision of the services described above

Generally, County funding provides approximately 20% of the total Health Department budget. State and Federal funding provides close to 66% of the budget, and the remaining 14% is obtained through private grants and fees.

HSCC installed a lift that allows visitors to access the building's

second floor from the first. The third floor of Cockey's contains office space, meeting space, and storage for educational and programmatic materials.

The Society stores and curates more than 40,000 items in three permanent collections and continues to accept donated artifacts and documents of local origin and significance.

Mission and Goals

To maintain and preserve the Homestead Buildings and gristmill as a living, working, historical landmark for future generations.

Goals include:

- Continued preservation and restoration of the historic site, buildings, and original furnishings
- Operation of the historic site as a museum of early American and Carroll County heritage
- Genuine and authentic education and historic interpretation of the site in keeping with its distinctive character and atmosphere

Description

In 1797, David and Andrew Shriver purchased the tract of land along Big Pipe Creek for the purpose of operating a gristmill and sawmill. The brothers later added a tannery, cooper shop, and blacksmith's shop. The growing enterprise soon took the name "Union Mills" because of the partnership between the two brothers and their various businesses. The mill operated commercially until 1942. It was closed for restoration in the early 1980's and then re-opened in 1983. In addition to the mill and outbuildings, the original "double house" of the two Shriver brothers can be visited today. The facility, located on Littlestown Pike in Union Mills, is owned by Carroll County and operated by the Union Mills Homestead Foundation, a non-profit organization which extensively uses volunteers.

Many special events draw visitors to the Homestead. The annual Flower and Plant Market in May, the Corn Roast Festival in August, and the Microbrewery Festival in September are three of the premiere events at the Homestead. The Homestead draws approximately 10,000 visitors annually.

In addition to the direct contribution of \$25,000, the County provides the Union Mills Homestead Foundation with in-kind services through the Bureau of Facilities and capital projects for renovations to the Homestead buildings and mill.

In FY 20, the Bureau of Facilities' budget includes \$41,200 for Union Mills.

Program Highlights

- The Homestead's Executive Director served as Co-Chair for the County's "Celebrating America" initiative.
- Partnered with Carroll County Public Library to bring the grist mill and tannery to life in a traveling exhibit called "Union Mills: Early Industry Comes Alive".
- The 49th Flower and Plant Market event was held in May.
- Annual scheduled events include the Corn Roast in August, and the Microbrewery Festival in September which highlights the Grist Mill.
- Worked with local Scouts on a variety of Eagle Scout projects, including a new community message board and ten wooden benches.
- The annual German Christmas-themed Christkindlmarkt was well attended in November.

Budget Changes

Union Mills Homestead remains flat due to one-time funding of \$5,000 for the mobile tannery exhibit in FY 19, offset by one-time increase of \$5,000 for a tannery interpretation.

Program Highlights

For FY 18, Carroll County received an unmodified audit opinion.

Budget Changes

Operating increases due to contract pricing for audit services.

Mission and Goals

To secure an independent certified public accounting firm to perform an independent annual audit of the County's financial records in order to assure the records are in accordance with the Generally Accepted Accounting Principles (GAAP).

Goals include:

- Obtain the annual audit at the lowest possible cost while simultaneously guaranteeing the audit is independent and conforms to all auditing standards required for governmental audits
- Fairly and clearly present full financial disclosure to anyone interested in the County's finances

Description

The independent audit is performed on an annual basis to provide reasonable assurance that the financial statements of Carroll County for the prior fiscal year are free of material misstatement. The independent audit involves: examining, on a test basis, evidence supporting the amounts and disclosure in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

This budget is for the General Fund portion of the annual audit itself and includes a single audit of Federal awards. State law (Maryland Code Article 19, Section 40) requires that all local governments have an annual audit of financial records performed by a certified public accountant.

County personnel who assist the external auditors in administering the Independent Post Audit are included in the Comptroller's Department.

The County's audited financial statements are presented online as part of the Comprehensive Annual Financial Report (CAFR) available at <http://cggovernment.carr.org/cgg/comp/18-cafr>.

The Forest Pest Management Section (FPM), part of the Maryland Department of Agriculture, conducts several activities to monitor, assess, and control tree disease or insect infestations that affect the health of Maryland forests. FPM provides advice on forest insects and diseases and manages Gypsy Moth and Hemlock Woolly Adelgid infestations in forest habitats.

The Gypsy Moth program has proactively conducted a cooperative suppression program since 1982. FPM employs three Entomologists and six Inspectors, plus a Program Manager and Administrative Officer. There are three field offices throughout the State.

Surveys typically take place each fall followed by spraying in the spring. Spraying historically generates and drives the bulk of expenses in this budget.

Mission and Goals

To assist farmers and other landowners in the reduction and control of noxious weeds (thistles, Johnsongrass, Shattercane, multi-flora rose) on their properties.

Goals include:

- Educate the public about noxious weeds, the environmental importance of the control, and the economic impact they can have on agriculture
- Respond to public inquiries and complaints regarding noxious weed infestations
- Advise and assist landowners in the development of a control and eradication program to enable them to comply with the Maryland Noxious Weed Law
- Provide spray services to landowners for noxious weed control
- Assist County Roads Department with the control and eradication of noxious weeds on County right-of-ways and County property
- Assist land owners with the control and eradication of noxious weeds in cooperation with the Natural Resources Conservation Service

Description

The Carroll County Weed Control Program is operated in cooperation with Maryland Department of Agriculture (MDA). A Carroll County Weed Advisory Committee is appointed by the County Commissioners to represent the County in the development of guidelines and procedures within the framework of the State law.

A Weed Control Coordinator is also employed on a permanent part-time basis under the direction and supervision of the Maryland Department of Agriculture to identify and survey noxious weed infestations.

During a typical growing season, several hundred individuals are contacted by the Coordinator concerning the methods and techniques available for controlling and eradicating noxious weed infestations. A spray service is available on a fee basis as an additional option for controlling and eradicating noxious weeds, and revenues generated from this service help offset the cost of funding the Carroll County Weed Control Program.

Program Highlights

- During the 2018 growing season, the noxious weed spray program generated \$142.50 in revenues from private properties, and \$93,091.45 in revenues from State and County agencies.
- In 2018, spraying to reduce noxious weed infestations on County roads and County properties was valued at \$15,391.45.
- Over 500 on-site inspections were made to identify weed infestations and to determine appropriate control methods and techniques, resulting in the mowing of approximately 250 acres to control noxious weeds.

Budget Changes

- Operating increases due to additional spraying of noxious weeds, offset by revenue.
- Capital increases due to one-time technology equipment.

Highlights, Changes, and Useful Information

Budget Changes

- Debt Service – Agricultural Preservation decreases primarily due to a one-time principal payment of \$1.2M for a mature Installment Purchase Agreement (IPA) in FY 19.
- Intergovernmental Transfers decreases due to downward adjustment in town populations to account for changes in vacancy rates, average household size, and mortality rates, partially offset by 2.25% inflation.
- Interfund Transfers increases due to:
 - An increase in Transfer to Capital for paygo on capital projects
 - A Commissioner decision to decrease Transfer to Solid Waste
 - An increase in Transfer to Grants for Aging and Disabilities and the State’s Attorney’s Office
- The Reserve for Contingencies increases due to the addition of a Fire Chief and Administrative Assistant.

Description

The funding in this budget is for the principal and interest the County pays on long-term debt. The County uses an analysis of the debt affordability to determine an appropriate level of debt to prevent revenue from being burdened by an unmanageable debt service payment, as well as to protect the County's bond rating.

The County is reviewed annually by the three rating agencies.

In FY 19, the County improved its bond rating level by earning the third Aaa rating from Moody's Investors Service, confirming a strong credit worthiness with the three major credit rating agencies.

- Fitch AAA
- Standard & Poor's AAA
- Moody's Aaa

Due to its strong credit rating, the County was able to issue \$25.0M in new bonds in FY 19. The primary uses of bonding are road construction, water resources, and school projects.

Budget Changes

In FY 20, the anticipated bond issue is \$34.8 million.

Description

The funding in this budget is for debt service the County pays on Installment Purchase Agreements (IPAs) for the Agricultural Land Preservation Program. The budget is determined by a combination of known debt service and estimated IPAs for the upcoming fiscal year. Typically, a land owner is offered 40% of Fair Market Value for the agricultural easement and the County pays 5.0% annual interest for 20 years on the easement value.

Description

The County provides a number of revenues to Carroll County municipalities. The Bank Shares Tax, Road Grant, and State Aid for Fire Protection are all pass-through revenues from the State. The County provides liquor and building permit services and sends the collections to municipalities. The County also shares County revenue with the municipalities through the Town Program funding. Brief descriptions of these revenues follow.

- Bank Shares Tax – This revenue replaced the municipal share of a discontinued State tax.
- Local Permits – As a service to the towns, the County collects fees for permits issued inside town boundaries.
- Local Liquor License – As a service to the towns, the County collects liquor license fees inside town boundaries.
- Road Grant – The State allocates funds to the County to replace Federal road funding. The municipalities receive 20% of the total allocation and individual town distributions are based on road mileage within their jurisdiction.
- State Aid for Fire Protection – State funds received by the County are passed on to the Volunteer Emergency Services Association. The County receives quarterly payments and distributes these funds at the end of the fiscal year.
- Town Program – The County shares a portion of its revenue with the municipalities. The amount is adjusted based on changes in municipal assessable bases and populations. Assessable base and population determine individual town distributions.

Budget Changes

The Town Program formula is driven by inflation and population. This budget decreases due to downward adjustment in town populations to account for changes in vacancy rates, average household size, and mortality rates, partially offset by 2.25% inflation.

Description

The Reserve for Contingencies provides funds for emergency and unforeseeable expenses. It is difficult to determine how much will actually be needed in a given year. Examples of expenditures that could be covered by the reserve are:

- Snow removal costs in excess of the Storm Emergencies budget
- Newly mandated Federal or State programs
- Unforeseen disruptions to critical County facilities and systems

Funds are moved from the Reserve to the appropriate budget with the approval of the Board of County Commissioners in response to a specific problem or opportunity.

Budget Changes

The Reserve for Contingencies is generally set at 1% of General Fund revenues. The increase in FY 20 is due to the addition of a Fire Chief and Administrative Assistant.

Capital Fund

A Quick Guide to the FY 20 – 25 Community Investment Plan Department of Management and Budget

Introduction

The combined Operating and Capital Budget books are more than seven hundred pages long and contain a great deal of information. This Quick Guide is intended to serve as a summary of important information and changes, as well as a tool for understanding and locating information in the budget books.

Recommended, Proposed, and Adopted Budgets are available online at <https://www.carrollcountymd.gov/government/directory/management-budget/bureau-of-budget/>.

Revenues (31-35)

- Total Capital Fund revenues are budgeted at \$65.8M in FY 20, a decrease of \$30.2M from the FY 19 Capital Fund budget of \$96.0M.

Mission and Goals

To provide safe operation of the Carroll County Regional Airport by meeting or exceeding Federal Aviation Administration and Maryland Aviation Administration guidelines.

Goals include:

- Promote aviation safety
- Enhance airport finances
- Promote a safe and efficient public use airport

Description

The funds in this budget provide for maintenance of the airport and include:

- General operations
- Mechanical maintenance
- Hangar rental

The 5,100 foot runway is the sixth longest non-military runway in the State. The proximity to Baltimore Washington International Airport (BWI) allows Carroll County Regional to be a reliever airport, thereby entitling the County to receive Maryland and Federal Aviation Administration grants for capital projects.

The Airport is an important component of the County's Economic Development plan, providing quick and convenient access to the growing business market. To better serve corporate clientele, corporate hangars and a fuel farm are available. The fuel farm supplies aviation and jet fuel, and the corporate hangars provide 70,000 square feet of space for storage of corporate jets.

Program Highlights

- In FY 13, the Commissioners approved the extension of the runway to approximately 5,400 feet.
- Skytech, Inc. provides airport Fixed Based Operator (FBO) services including aircraft fueling, maintenance, sales, avionics, flight instruction, and charter flights.

Budget Changes

- The increase from FY 19 Original to Adjusted is due to a salary adjustment, a change in personnel allocations, and the addition of an Administrative Assistant position.
- A 3% salary increase is included in FY 20.
- Operating decreases due to a reduction in debt service, partially offset by an increase to repair supplies and snow removal.
- Capital increases due to increased Revenue in Excess of Expenses and one-time removal of a structure in FY 20.

Mission and Goals

To ensure the Septage Treatment Facility is operated in a cost-effective manner while generating the necessary revenues to cover the cost of operations.

Description

The funds in this budget support operation and maintenance costs for the Septage Treatment Facility at the Westminster Wastewater Treatment Plant. The City of Westminster operates the facility.

Westminster City documents costs incurred and usage by the various haulers, and reports this information to the County. The County reimburses the City and bills individual haulers. The current rate is \$0.065 per gallon.

The facility is available 5½ days per week. In emergency situations, septage can be taken to the Freedom Wastewater Treatment Plant. The Septage Treatment Plant was built in response to a mandate to cease land application of septage.

Budget Changes

- Operating increases for City of Westminster license and permits fees.
- Capital increases due to an increase in gallons processed and a replacement card reader system, partially offset by a one-time equipment purchase in FY 19.

Enterprise Fund budgets are presented based on cash expenses, depreciation is not included, and bond principal has been added. To accurately define what is happening in the budget, Revenue in Excess of Expenses is shown separately from the individual budget. This line item captures the annual amount generated by the operating revenue, net of operating cash expenditures. Revenue in Excess of Expenses is available to fund capital projects, vehicles and equipment, and contingency reserves.

Mission and Goals

To provide the most cost-effective and efficient services for waste disposal, removal, and recycling for County residents and businesses.

Goals include:

- Serve the public
- Educate the public on the effects of waste management and recycling
- Monitor landfills for any environmental impact

Highlights, Changes, and Useful Information

The Bureau of Solid Waste is in the process of developing a long-term waste management strategy that will be environmentally responsible and fiscally balanced. The first phase of the plan, from FY 17 to FY 20, is to divert a portion of transferred tons into the County's landfill in order to accumulate funds for the long-term plan. However, several factors have negated the ability to accumulate funds. There has been a significant price escalation in the recycling market and disposal costs for leachate have increased dramatically due to unusual weather events. The Board of County Commissioners also temporarily decreased the amount of General Fund dollars transferred to the Solid Waste Enterprise Fund.

Budget Changes

- Northern Landfill decreases due to replacement equipment purchases in FY 19.
- Recycling increases due to a rise in the per ton rate for recycling disposal.
- Solid Waste Accounting Administration increases due to a weigh station software upgrade.
- Solid Waste Transfer Station increases due to additional tonnage transferred, and an increase to the transfer cost per ton.

Mission and Goals

To provide the most cost-effective and efficient services for waste disposal and recycling for County residents and businesses.

Goals include:

- Meet all regulatory requirements of the Environmental Protection Agency and the Maryland Department of the Environment
- Maximize the compaction rate of all materials disposed of in Northern Landfill while minimizing the cost and volume of air space consumed by daily cover requirements
- Monitor landfills for any environmental impacts and minimize liability

Description

Solid Waste Management is responsible for:

- Carroll County's only full-time operational landfill (Northern)
- Monitoring of the four closed landfills: Bark Hill, Hodges, John Owings, and Hoods Mill
- Recycling Operations
- Yard waste/mulch program
- Maintaining and updating the Ten-Year Solid Waste Management Plan
- Contracting for the transfer of waste and recycling materials

Program Highlights

The Bureau of Solid Waste is in the process of developing a long-term waste management strategy that will be environmentally responsible and fiscally balanced. The first phase of the plan, from FY 17 to FY 20, is to divert a portion of transferred tons into the County's landfill in order to accumulate funds for the long-term plan. There has been a significant price escalation in the recycling market and disposal costs for leachate have increased dramatically due to unusual weather events. The Board of County Commissioners also temporarily decreased the amount of General Fund dollars transferred to the Solid Waste Enterprise Fund.

Budget Changes

- A 3% salary increase is included in FY 20.
- Operating decreases due to the completion of the FY 19 Pay-As-You-Throw pilot program.
- FY 19 Capital reflects the planned amount of Revenue in Excess of Expenditures. Due to unforeseen market conditions, the County does not expect to have Revenue in Excess of Expenditures in FY 20.

Mission

To ensure all regulatory requirements of the Environmental Protection Agency and Maryland Department of the Environment are met.

Description

The funds in this budget support four closed landfills in the County:

- Hoods Mill Landfill
- Bark Hill Landfill
- Hodges Landfill
- John Owings Landfill

Federal law requires that the County monitor landfills for 30 years after closure. Groundwater monitoring and methane gas sampling are the main expenses associated with the closed landfills. Bark Hill and Hoods Mill Landfills still produce leachate that must be hauled to a wastewater facility for treatment. Leachate is a liquid produced when rainwater and other moisture travel through the waste.

Program Highlights

Hoods Mill Landfill operates as a convenience drop-off site, and is open the first and third Saturday each month.

Mission

To ensure adequate space for landfilling non-transferable waste by conserving existing air space and planning for landfill cell expansion when needed.

Description

Northern Landfill is the County's only operational landfill and waste transfer station. Facilities are provided for:

- Waste disposal
- Recycling
- Acceptance of yard waste
- Waste oil and antifreeze drop-off
- Scrap tire collection
- Goodwill collection site
- Scrap metal and appliances
- Vinyl siding recycling
- Electronic recycling

Beginning FY 17, the percentage of waste transferred and waste buried changed to approximately 60% and 40% respectively. Burying waste at Northern Landfill eliminates the costs of transferring the waste to Pennsylvania. The savings will help fund the implementation of a long-term waste management and recycling plan.

Budget Changes

- The increase from FY 19 Original to Adjusted is due to employee turnover and salary adjustments.
- A 3% salary increase is included in FY 20.
- Operating decreases due to one-time paving in FY 19.
- Capital decreases due to equipment replacement in FY 19.

Services at the recycling center are provided through a contract with The Arc Carroll County. Scrap metal, batteries, and electronics are collected at Northern Landfill and disposal is managed by contractors. Yard trimmings are managed through a private contractor.

Mission and Goals

To promote an integrated Solid Waste Management Program that includes: waste prevention, reuse, recycling, and minimal waste disposal by providing residents and businesses with information, training, and outreach in order to benefit the environment by saving natural resources, energy, and landfill space, and by preventing pollution.

Budget Changes

- A 3% salary increase is included in FY 20.
- Operating increases due to the cost of single stream recycling increasing from \$36 per ton in FY 19 to \$46 per ton in FY 20.
- Capital increases due to equipment replacement.

Goals include:

- Exceed the State of Maryland's mandate of 35% of total waste material received
- Educate County residents and businesses on proper waste management practices including:
 - Waste prevention
 - Reuse
 - Recycling
 - Minimal disposal

Description

The County offers voluntary recycling opportunities for all residents and businesses. Licensed haulers are required to offer all of their customers a curbside recycling service. A full-service recycling center is located at the Northern Landfill. Items the County accepts for recycling include:

- Single stream
- Paper and cardboard
- Plastics and rigid plastics
- Textiles
- Electronics
- Aluminum
- White goods/scrap metal
- Yard trimmings
- Styrofoam
- Kitchen frying oil
- Motor oil/antifreeze

Mission and Goals

To provide accounting tasks and system support for the Solid Waste Enterprise Fund and to provide customer service to all users of the landfill.

Description

This budget reflects the cost of accounting and weighmaster operations at Northern Landfill. The responsibilities include:

- Determining the type of waste being brought into the landfill
- Determining eligibility of the waste being brought in (generally only waste generated in Carroll County is accepted)
- Collecting landfill fees
- Keeping records of billing, and of what type of waste is brought in by haulers

Budget Changes

- The increase from FY 19 Original to Adjusted is due to salary adjustments.
- Personnel increases due to a 3% salary adjustment and increased overtime costs.
- Operating increases due to post-closure liability associated with an increase in tons landfilled.
- Capital increases due to one-time computer replacement.

Mission

To ensure facilities and resources are in place to manage approximately 100,000 tons per year of solid waste with an out-of-County transfer/disposal operation.

Description

The transfer station became operational on December 1, 1998. It allows the County to accept solid waste from residents and businesses, and to transport the waste to a landfill in Pennsylvania for disposal.

The Bureau of Solid Waste is in the process of developing a long-term waste management strategy that will be environmentally responsible and fiscally balanced. The first phase of the plan, from FY 17 to FY 20, is to divert a portion of transferred tons into the County's landfill in order to accumulate funds for the long-term plan.

Budget Changes

Solid Waste Transfer Station increases due to additional tonnage transferred, and an increase to the transfer cost per ton.

Mission and Goals

To keep all water and sewer systems at peak levels of performance without interruption in service, while protecting the environment.

Goals include:

- Protect the environment while continuing to comply with State and Federal regulations
- Be proactive in determining future needs for facilities by monitoring areas of growth

Highlights, Changes, and Useful Information

- There are 5 County-operated wastewater treatment systems. The Freedom Sewer System serves 6,924 sewer accounts, and includes 126 miles of collection lines and 14 pumping stations. The County also contributes 88% of the operating costs for the State of Maryland owned and operated Freedom Wastewater Treatment Plant. The Hampstead Sewer System serves 2,284 accounts and includes the Hampstead Wastewater Treatment Plant (HWWTP), 35 miles of collection lines and 7 pumping stations. The HWWTP is undergoing an extensive upgrade that is necessary to meet current environmental discharge requirements. The upgrade will be completed in 2021. Other systems include the South Carroll Wastewater Treatment Plant, the Runnymede Wastewater Treatment Plant and the Pleasant Valley Community Sewer System.
- There are 3 water treatment and distribution systems operated by the County. The Freedom Water System serves 8,560 accounts and includes the Freedom Water Treatment Plant (FWTP), 8 groundwater sources and treatment facilities, 140 miles of distribution lines, 4 water storage tanks and 1 booster pump station. The FWTP processes water drawn from the Liberty Reservoir and the groundwater sources provide supplemental water to the system. The Bark Hill Community Water System is a groundwater system that serves 62 accounts and includes a treatment facility and a water storage tank. The Pleasant Valley Community Water System is groundwater system that serves 53 accounts, and includes a treatment facility and a water storage tank.

Budget Changes

- The decrease from FY 19 Original to Adjusted is due to delayed capital projects as a result of a Commissioner decision not to raise rates in FY 19.
- BOU Administration increases due to replacement vehicles and technology improvement.
- Freedom Sewer increases due to the County's contract with Maryland Environmental Services (MES).
- Freedom Water increases due to a higher cost per gallon of water from the City of Baltimore and capital projects moved from FY 19 to FY 20.

Pumping stations are needed to pressurize and to lift the wastewater flow in areas where the force of gravity is incapable of moving sewage through the collection system.

Mission

To maintain and operate the Freedom Sewer System at peak performance levels without interruption in service, while protecting and minimizing impact on the environment.

Budget Changes

- The decrease from FY 19 Original to Adjusted is due to employee turnover, and delayed capital projects due to a Commissioner decision not to raise rates in FY 19.
- A 3% salary increase is included in FY 20.
- Operating increases due to a contract increase with MES and vendor services.

Description

Funds in this budget are used to operate and maintain the following facilities:

- Freedom Wastewater Treatment Plant (FWWTP)
- 126 miles of collections lines
- 14 pumping stations

The Freedom Sewer system serves approximately 6,900 sewer accounts.

The FWWTP is capable of processing 3.5 million gallons of raw sewage per day. The County's service area generates 88% of the current flow to the plant, while State of Maryland owned property generates the remaining 12%. The FWWTP is owned by the State and is operated by the Maryland Environmental Service (MES).

The fourteen pumping stations include:

- Piney Run
- Sykesville
- Carroll Highlands
- Lake Forest
- Snowdens Run
- Pine Hill
- Water's Edge
- Edgewood
- Patapsco Valley Overlook
- Stone Manor
- Woodsyde
- Raincliffe
- South Carroll Senior Center
- Schoolhouse Road (under construction)

Mission

To provide the customers of the Freedom District with a potable water supply that meets or exceeds State standards without interruption in service.

Description

The Freedom Water System includes:

- Freedom Water Treatment Plant
- 139 miles of distribution lines
- Two ground wells
- Four water storage tanks
- One booster station

The Freedom Water System serves approximately 8,500 accounts.

The 4.0M gallons per day capacity Freedom Water Treatment Plant (FWTP) was completed in 2009. FWTP processes water purchased from Baltimore City and drawn from the Liberty Reservoir.

The four water storage tanks are located at:

- Kabik Court
- Liberty High School
- Linton Road
- Martz Road

The total capacity of the water storage tanks is approximately 3.0M gallons. The storage tanks are utilized to ensure adequate water supply and pressure during times of heavy usage and for fire suppression availability.

The booster station, located on Martz Road, is utilized to distribute water supply in the low pressure area of the water system.

Budget Changes

- The decrease from FY 19 Original to Adjusted is due to delayed capital projects due to a Commissioner decision not to raise rates in FY 19, partially offset by salary adjustments.
- A 3% salary increase is included in FY 20.
- Operating increases due to higher cost per gallon of water from the City of Baltimore and outside testing costs.
- Capital increases due to one-time site improvements and replacement equipment purchases in FY 20.

Mission

To maintain and operate the Hampstead sewer system at peak performance without interruption in service, while protecting the environment.

Description

The Hampstead Sewer system services approximately 2,300 sewer accounts and consists of:

- Hampstead Waste Water Treatment Plant (HWWTP)
- 35 miles of collection lines
- Seven pumping stations
- A wastewater treatment plant

The HWWTP is currently capable of processing 0.9M gallons of raw sewage per day. HWWTP is undergoing an upgrade project that will be completed in 2021. This upgrade will ensure that all State-mandated discharge requirements will be met.

The seven pumping stations include:

- North
- Small Crossings
- Shiloh
- North Carroll Farms
- South Hampstead
- Eagle Ridge
- Robert's Field

Pumping stations are needed to pressurize and to lift the wastewater flow in areas where the force of gravity is incapable of moving sewage through the collection system.

Budget Changes

- A 3% salary increase is included in FY 20.
- Operating increases due to an increase in tree trimming and chemical costs.
- Capital increases due to one-time equipment purchases in FY 20.

²The County Match/Contribution for FY 20 includes a reappropriation of \$17,963.63 from unspent prior year grants.

Glossary

GLOSSARY OF TERMS

ADJUSTED BUDGET The annual operating budget with up-to-date modifications resulting from operations of County agencies since the budget adoption.

ANNUALIZE Taking changes that occurred during the year and calculating their cost or savings for a full year for comparison purposes in the preparation of the annual budget.

APPROPRIATION The County's legal authorization to spend a specific amount of money for a particular purpose during a fiscal period.

ASSESSABLE BASE The total valuation placed on real and personal property, minus certain exemptions, by the State Department of Assessments and Taxation for the purposes of levying property taxes. The Board of County Commissioners determines the tax rate to be applied against the tax base to generate tax revenues to support the annual budget. Tax-exempt property is excluded from the assessable base.

ASSESSED VALUATION The valuation established for individual real estate or other property by the State for purposes of taxation.

AUTHORIZED POSITION An employee position approved by the Board of County Commissioners.

BALANCED BUDGET A budget in which total expenditures equal total revenues. By State law, the County's budget must be balanced.

BOND An investment-grade interest-bearing certificate of indebtedness sold by the County or another governmental agency to generate funds. The bond guarantees payment of the original investment plus interest by a specified date or dates in the future. Bonds typically involve long-term indebtedness to pay for capital projects.

BOND RATING Evaluation of the credit quality of bonds usually made by independent rating services. Ratings generally measure the probability of the timely repayment of principal and interest on municipal bonds. Before a bond issuance, rating agencies may require information on demographics, debt burden, economic base, finances and management structure. The information is evaluated and the bond issue is assigned a letter rating which reflects the credit worthiness of the bonds. The higher the credit rating, the more favorable the effect on the marketability of the bond.

BONDED DEBT The total amount owed by the County as a result of the sale of general obligation or other bonds guaranteed by the County Government.

BUDGET A comprehensive financial plan describing proposed expenditures and the means for financing those expenditures.

BUREAU A sub-unit within a department with its own budget. An example is the Bureau of Accounting within the Department of the Comptroller.

CAPITAL FUND Financial resources related to the acquisition or construction of major assets of the County.

DEBT SERVICE The annual payment of principal and interest on the County's bonded debt.

DEPARTMENT A County agency consisting of one or more bureaus or offices. Examples are the Department of Public Works and the Department of Management and Budget.

EMPLOYEE TURNOVER A term that refers to workers leaving a position and being replaced by new employees.

ENTERPRISE FUND A fund established to account for the financing of self-supporting services provided by the County government. The services generate revenues from fees, charges, and other receipts. Carroll County presently has six enterprise funds: Airport, Fiber Network, Firearms, Septage, Solid Waste, and Utilities.

EXPENDITURE The cost of goods delivered or services rendered.

FISCAL YEAR A twelve-month period of time to which the annual Operating and Capital Budgets apply. Carroll County's fiscal year commences July 1 and ends the following June 30th.

FRINGE BENEFITS Contributions made by the County government to meet its commitments or obligations for Social Security, and the various retirement, medical and insurance plans for employees.

FULL-TIME EQUIVALENT POSITION (FTE) A position converted to the decimal equivalent based on 37.5 – 40 hours per week. For example, a part-time employee working 20 hours per week would be equivalent to 0.5 of a full-time position, and a person working 40 hours per week would be equivalent to 1.0 full-time position. Positions in the Circuit Court are considered full time at 35 hours per week.

FUND A separate budget/accounting grouping with its own revenues and appropriations. The general fund, for example, covers most of the daily operations of the County agencies and is funded by a variety of taxes and other revenues.

FUND BALANCES These accounts serve as the function of the owner's equity account in for-profit entities. Available balances in these accounts are the cumulative result of actual revenues exceeding expenditures over time. Bond rating agencies use fund balance levels as a means of evaluating a government's ability to cover unanticipated shortfalls in revenue projections or emergency expenditures that arise during the year.

GAAP Generally Accepted Accounting Principles. A common set of accounting conventions, standards, and procedures followed when preparing financial statements.

GASB 54 Governmental Accounting Standards Board Statement 54. Fund Balance Reporting and Governmental Fund Type Definitions establishes five categories for governmental funds reporting: non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance and unassigned fund balance.

GENERAL FUND The primary operating fund of the County, used to account for all financial resources except those required to be accounted for in another fund.

GENERAL GOVERNMENT The function of government comprised of the central administrative offices, such as: Comptroller, Economic Development, Human Resources, Management and Budget, and County Commissioners.

GENERAL OBLIGATION BONDS Common type of municipal bond that is secured by a state or local government's pledge to use legally available resources, including tax revenues, to repay bond holders.

GOALS A broad statement of purpose that represents a framework of outcomes to be achieved on behalf of the customers and reflects realistic constraints upon the unit providing the service.

GOVERNMENTAL PARTNERS Agencies, such as Sheriff's Office and State's Attorney's Office, that are funded by the County, but not under the direct control of the Board of County Commissioners.

GRANT A contribution of assets (usually cash) from one governmental unit (typically the State or Federal government) or other organization to another. The contribution is usually provided in support of a particular public function, project, or program.

GRANT FUND Accounts for revenues that are formally restricted by law for a particular purpose or have specific requirements associated with the eligible program costs.

HOMESTEAD TAX CREDIT This credit, set by the Commissioners, caps the amount taxes can increase on a primary residence at five percent per year. The credit equals the County's tax rate multiplied by the amount by which the current year's assessment on residential property exceeds five percent of the previous year's taxable assessment.

IMPACT FEES One-time charges assessed against new development that attempt to recover from the developer the capital cost of the additional public facilities of parks and schools needed to serve that development.

INCOME TAX Counties in Maryland have the authority to levy a local income tax rate, which is expressed as a percentage of State taxable income.

INDEPENDENT BOARDS/AGENCIES Agencies of the County which are not subject to full County appropriation authority due to State Law (i.e., Carroll Community College, Carroll County Public Library, Health Departments, the Board of Education and the Carroll County Volunteer Emergency Services Association), or are State agencies or legally independent boards not directly responsible to the Board of County Commissioners.

INVESTMENT Securities purchased and held for the production of income in the form of interest and dividends. An investment instrument is the specific type of security that a government purchases and holds.

LEACHATE A liquid produced when rain water and other moisture travels through solid waste.

LICENSES/PERMITS Documents issued in order to regulate various kinds of businesses and other activity within the community. Inspection may accompany the issuance of a license or permit, as in the case of liquor licenses or building permits. In most instances, a fee is charged in conjunction with the issuance of a license or permit to cover all or part of the related cost.

MAINTENANCE OF EFFORT (MOE) Refers to the State law requiring County governments to demonstrate that local funding remains constant from year to year. Each time a County government funds more than MOE, a new higher MOE is created.

MUNICIPALITY City or town incorporated for local self-government.

OPERATING BUDGET The annual budget that supports the day-to-day operations of County agencies.

OPERATING IMPACTS The costs associated with implementation of projects in the Capital Budget. Examples include utility, maintenance, and personnel costs.

ORDINANCE A regulation enacted by the government.

OVERLAY (Roads) Consists of milling and patching of failed areas and the application of hot mix asphalt over the existing road.

PAYGO A fiscal policy by which capital projects are funded with current revenue rather than long-term or bonded debt. In Carroll County, in addition to transfer to capital, other sources of current revenue are appropriated directly to the Capital Budget: Property Tax devoted to capital, Local Income Tax devoted to capital, fund balance appropriations, bond interest and Impact Fees.

PEG ACCESS television production equipment, training and airtime on a local cable system so members of the public, educational system, and the government can produce their own shows and televise them to a mass audience.

PERSONNEL ALLOCATIONS Portion of a position allocated to a budget or fund.

PROJECT An identified cost center within the County's accounting system. Costs are summarized as follows:

PERSONNEL The costs associated with the payment of County personnel. Included are salaries and wages, hourly, part-time, overtime, night differential, and seasonal employee expenses.

BENEFITS The costs for payroll taxes, pension, 401K, and Other Post Employment Benefits (OPEB).

OPERATING The non-labor, non-capital related costs associated with the day-to-day operations of County agencies. Included are expenses such as business conferences, contractual services, rents and utilities, and supplies and materials.

CAPITAL The expenses associated with the purchase of an asset. An asset is defined as any tangible material that is non-expendable.

PROPERTY TAX Tax on the value of real and personal property is levied almost exclusively by local governments. In Maryland, the State Department of Assessments and Taxation is responsible for the valuation and assessment of all property in the State. The local government is responsible for setting the tax rate applied to the property assessments to generate revenues in support of the local budget.

RECORDATION A fee calculated on the value of recorded mortgages, deeds, and other documents conveying title or creating liens on real and personal property.

RESERVE FOR CONTINGENCIES Funds budgeted to provide for unforeseen expenses or emergencies that arise during the fiscal year.

RESOLUTION Formal statement presented to Commissioners for decision.

REVENUE IN EXCESS OF EXPENDITURES Net earnings retained by an enterprise fund to be reinvested in its core business or to pay debt.

REVENUE Monies received by the County to provide services needed by the public. Property Taxes, building permits, and receipts from State and Federal sources are examples. By law, revenues must meet or exceed appropriations.

SPECIAL REVENUE FUND Captures dedicated revenues until they are appropriated for use in other funds in a given year. An example is the Hotel Rental Tax.

TRUST FUND A special fund, administered by the County as trustee, consisting of resources to be expended or invested under the terms and conditions of the trust.

UNAPPROPRIATED RESERVE Revenue in excess of budget and unspent appropriated dollars.
