Annual/Triennial Permeable Paving Stormwater Management Facility Operations and Maintenance Inspection Form Instructions:

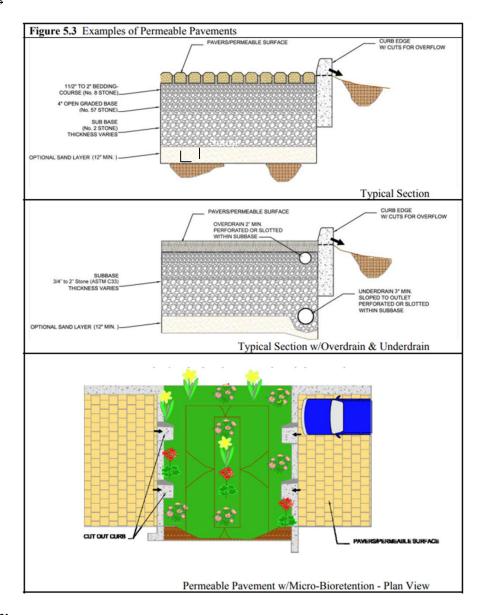

The top portion of the form is to be filled in with the relevant information. One form per facility per inspection

Owner Information should be filled in with the contact information of the owner of the facility. If the owner is different than the one listed on the letter please check the box.

Facility Information can be obtained from the letter or by contacting the Bureau of Resource Management at (410) 386-2712.

Inspection Information should be completed by the individual completing the inspection.

Permeable Paving

Annual Inspection:

Photos. Attach date stamped photos of the facility to this inspection report. One photo should be an overall showing the location of the permeable paving and one should be a close-up photo of the surface condition. The next should be of the sweeping and vacuuming underway and the last should be of the cleaning of inlets, tanks and pipes as above.

Triennial Inspection:

Carroll County inspectors will perform an inspection of the facility every three years. Owner is responsible for providing copies of this form and associated pictures from the annual inspections when requested.
