

Licensed Training Provider

INTRODUCING THE AMERICAN RED CROSS PEDIATRIC ADVANCED LIFE SUPPORT (PALS) CERTIFICATION

Throughout your PALS course, you'll learn to assess, recognize and provide high-quality care to pediatric patients experiencing life-threatening medical emergencies, including shock, cardiac and respiratory events, as well as how to provide care after the return of spontaneous circulation (ROSC) during a resuscitation effort. In addition, our course will challenge your critical-thinking and problem-solving skills, and help improve your teamwork skills to provide better patient care.
